

FR. CONDON TO SING HIS FIRST MASS SUNDAY

Rev. Garrett James Condon, son of Mr. and Mrs. James Condon of 219 Riverside street, this city, who was ordained to the priesthood at the Amer-

REV. GARRETT J. CONDON

ican college, Rome, on June 2, arrived in Lowell Monday evening, and he will celebrate his first high mass at St. Columba's church, at 10.30 o'clock next Sunday.

Fr. Condon secured his early education at the St. Patrick's Boys' academy, graduating from there with hon-

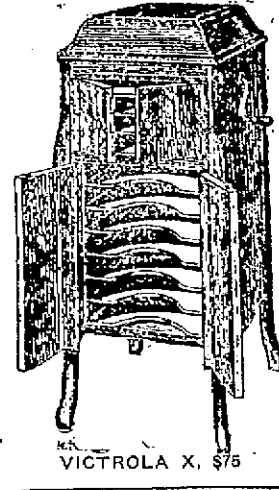

ors. If he then entered Boston college and upon graduating from there five years ago, he went to Rome and studied for five years and with others, was elevated to the priesthood at a most impressive service on June 2. There was then some uncertainty over his departure for this country, on account of the war, and his letters to his parents here failed to give much information relative to his coming owing to the strict war censorship.

SECOND CARNIVAL EVENT TONIGHT

The second event of the big Lowell Carnival which began with the grand "Miss Lowell" beauty contest at the Casino last Friday will be given this evening at that same popular pleasure resort in the form of an All Girl show which promises to be one of the biggest and best of its kind ever presented in Lowell. All arrangements have been completed for the staging of this much looked-forward-to event by Mr. Edward F. Quinn, who is promoting this carnival. Lovers of good musical entertainment will thoroughly enjoy this show as a partial list of those who will sing many of the latest song hits will indicate; among others are such favorites as May Doherty, Evelyn Bennett, Lillian McPerson, Fox, Florence McManus, Alice Dion, Alice Bonin and Katherine Shannon. Walter E. O'Neil is musical director and pianist.

Each one attending the All Girl show tonight will have a chance to win the Liberty Bond and the lovable little baby which will be given away on Banner Night next Friday evening.

Informal Recitals Daily—Come In Any Time

ATTENDANCE OFFICER IS 71 YEARS OLD TODAY

Attendance Officer Camille Roussin is today receiving congratulations from his many friends on the occasion of the 71st anniversary of his birth. Mr. Roussin's anniversary comes at a very appropriate time as he is now enjoying his annual two weeks' vacation, having returned a couple of days ago from Fall River, where he was the guest of friends and relatives.

CAMILLE ROUSSIN

last February. While in Rochester Mr. Roussin conducted a successful business, but after a few years he left for Cleveland, O., and later went to Fall River, where he again entered business. For a short time he made his home at Warren, R. I., and 33 years ago he came to Lowell and has lived here ever since.

Shortly after his arrival in Lowell Mr. Roussin opened a wine store and later disposed of his business to enter the pharmacist line. In 1898 he was appointed attendance officer, which position he is still holding. His home is at 3 Salem street, but the summer months he spends at his cottage at Brookside, Dracut, on the Lawrence road.

we would preserve and enlarge in our children.

"France had no time to make plans for else than immediate defense," he declared. "Her universities were at once practically emptied of men, when some should have been held in order that they might give a more efficient service later."

President Finley urged that the United States take time to prepare against such exhaustion of our technical skill and professional equipments as would deprive those who must face man's scientific savagery of man's highest ministry.

Except to make place for physical training in her schools, which is not yet generally prescribed or enforced, President Finley said there is little change in the French curriculum.

France, after an unsuccessful experiment 15 years ago, withdrew military training from her public schools and she is now looking in the direction in which New York has gone as pioneer, President Finley declared.

**GAME ON NORTH COMMON**  
The Broadway Social and Athletic association baseball team will play the strong Lawrence Independent team on the North common tomorrow afternoon at 3 o'clock. The Independents are the strongest semi-professional team in Lawrence and are coming prepared to carry home a victory which past teams from the down-river city have failed to do. The Eyewitnesses present their strongest lineup and a good game can be looked for by those who attend.

**CASTORIA**

In Use For Over 30 Years  
Always bears the Signature of *Chas. H. Fletcher*

**SOCIAL AND FRATERNAL**  
The Ladies' auxiliary of the Street Carmen's union held a "gentlemen's night" at the home of Mrs. Thomas Murphy, 495 Hildreth street Wednesday night. There was a large attendance, eight ladies and their husbands being present. An excellent supper was served and during the evening readings were given by Mrs. Leon Westcott and a psalmist, Mr. William Lane and Walter Harrison furnished much enjoyment.

Elgin lodge, 166, N.E.O.P. held its regular business and social meeting in Veritas hall, Branch street, last night. Deputy Grand Master, Warden Elizabeth Gahn and Grand Guide Mrs. Marie Mayhaw of Cambridge as the official guests. Routine business was transacted and during the social hour which followed, songs were sung by Fred Timmins and refreshments were served.

The regular meeting of Lowell council, Knights of Columbus, was held last night at 8 o'clock. Thomas Murphy, 495 Hildreth street, was in the chair. Considerable routine business was transacted and two new members were admitted. Reports were heard from the committee in charge of the annual field day and outing of the ward, which is to be held in the near future. Favorable reports from the auditing committee in regard to the financial standing of the ward were also given and a communication was read from headquarters, stating that Supreme President John Howland of Malden and Supreme Secretary Charles H. Finn will be in attendance at the next regular meeting.

**DETECTIVE INDICTED IN CRUGER CASE**  
NEW YORK, July 20.—An indictment charging neglect of duty in connection with the investigation into the murder of Ruth Cruger by Alfredo Cocchi was returned yesterday against Detective John Lagarone by the grand jury investigating the alleged inefficiency of the police department in the handling of the case. Lagarone was immediately placed under arrest.

**SINN FEIN ORGAN SUPPRESSED**  
LIMERICK, Ire., July 20.—The Sinn Fein organ, Factionist, which has been appearing for some months, was suppressed yesterday. The police seized the plant.

## MGR. JOHN O'BRIEN OF CAMBRIDGE DEAD

BOSTON, July 20.—Mgr. John O'Brien, the venerable pastor of the Church of the Sacred Heart, East Cambridge, died last night at 6:45 o'clock, at the rectory on Sixth street. He had been in poor health for a long time and able to attend to his duties only intermittently.

He was confined to his bed for only two weeks. The funeral will take place at the church tomorrow morning and the burial will be at West Springfield.

Mgr. John O'Brien would have been a great man in any station of life. He was fearless, of untiring energy, and gifted in large measure with constructive ability—the ability to make his work count for something. The work he accomplished in the Sacred Heart parish at East Cambridge is a monument to this latter quality.

Like many Irishmen who came to this country during the first great in-

flux of immigrants to New England from the Emerald Isle in the late 40's, he had the physical capacity for hard work, was simple and God-fearing and had the determination to succeed.

He was born in Garrahan, parish of Imogeola, diocese of Cloyne, County Cork, Ireland, April 2, 1838. He came with his parents to this country in 1850 and went to work on a vegetable farm in West Springfield. In 1852 he worked in the mill room of the cotton factory in Milton, a village in the same town.

On the passage of the first prohibition law by the Massachusetts legislature a body of citizens was formed to enforce it in Milton and John O'Brien was made secretary. His acceptance of the office caused a controversy in the first Catholic colony of 10 or 20 families, for they considered that his consent to serve was almost equivalent to his leaving the church in the same town.

Early in his career he organized a Sunday school in Milton, and Mr. Melcher, superintendent of the mill, gave O'Brien the use of the corporation hall free. Mr. Melcher later gave young O'Brien an acre or more of land for a church on which the present church now stands.

Every Catholic child and youth in the village faithfully attended John O'Brien's Sunday school. Many years later Fr. O'Brien pointed with pride to men who had developed from this Sunday school. In the autumn of 1887 he attended an academy in Springfield, Mass., where he studied French, Latin and Greek, being the first and only Catholic who attended the school.

He went to St. Charles college, Maryland, in 1890, remaining, even during the vacations, until he finished his course in 1894. In 1894 he went to St. Joseph's seminary in Troy, N. Y., for his philosophical and theological courses. He was ordained at the seminary June 18, 1895, and then Bishop Williams of Boston at once appointed him assistant to Fr. Hamilton of St. Mary's church, Charlestown.

In January, 1897, Fr. O'Brien was made pastor of Concord and Lexington, having five Sunday schools in his care, one in Lexington, two in private houses, one in the church in Concord and one in a private house in West Concord.

On March 8, 1897, Fr. O'Brien was sent to take charge of the Church of the Sacred Heart at 614 and Sixth streets was laid Oct. 4, 1894. The basement was opened for service Nov. 12, 1896, and the church was dedicated Jan. 28, 1897. Since then Fr. O'Brien had erected a parish house, a baptistery, a parochial school and convent.

As a citizen Fr. O'Brien had no superior. He was the first man to call attention to the need of a park system in Cambridge, and has, in fact, been called the "father of the park system." He was chaplain at the inauguration of Mayor Fox; served on the school committee for eight years; on the park commission for three terms, resigning in the middle of the last one. He was always active in the temperance cause.

In December, 1888, he began in his own parish in East Cambridge, a Catholic weekly, the Sacred Heart Review. His paper, now at Boston publication, ranks among the leading religious periodicals of the time. In 1909 Fr. O'Brien was made a domestic prelate by Pope Pius X, with the title of monsignor.

For 16 years Fr. O'Brien had differences with St. John's Literary Institute, East Cambridge, an organization of Catholic men and the first in the parish, over the right of the membership to sell the property held by the institute. Fr. O'Brien won his point when the organization amended its constitution so that such a sale would have to meet the approval of the archbishop.

Years ago he was treasurer of the Boston Columbus memorial committee which raised funds for a monument on the island of Santa Domingo where was built the first church in the western hemisphere.

About 14 years ago, Mgr. O'Brien disapproved of the activities of the Y.M.C.A. in East Cambridge, taking exception to alleged statements at a meeting in Boston, characterizing that

section of Cambridge as a "Whitechapel district." Fr. O'Brien enumerated in an open letter many Catholic societies doing good work in the parish and asked that President Elliot of Harvard withdraw his student workers from the district. The request was complied with.

## MAKING PLANS FOR BIG AGRICULTURAL FAIR

At a meeting yesterday afternoon of the central committee in charge of the Agricultural fair to be held at the Kasino Sept. 20, 21 and 22, under the auspices of the Middlesex North Agricultural society, the board of trade and the Lowell park department, a sketch of the plan for the big event was made, and all interested pledged themselves to spare no time or effort in making the affair one of the best of its kind ever conducted in this city.

The fair will last three days and the program in a nutshell will consist of a street parade, contest and commercial display. The street parade will be held Thursday noon, Sept. 20, and will consist of loaded trucks with prizes for trucks entered by the granges by the vegetable gardeners, the fruit and flower men and the children.

The Best

## The Wonders of Yellowstone Park—New Features Making a Park Tour Delightful.

There is no monotony in Yellowstone—each day brings you an entirely new set of wonders. Strange geysers throwing out tons of boiling water and steam, "hot spots" bubbling on and on forever, canyons and waterfalls almost twice the height of Niagara, petrifed forests, and a thousand other wonders.

The hotels, camps and automobile transportation in the Park are each under the control of the Government. No more slow and uncomfortable horse stages. The Government has decreed that automobiles shall be the new means of conveyance, and they are now universally used.

A five-day tour of the Park costs only \$22.00, or, if you use the camps instead of hotels \$24.00. The rail rate to the Park is very reasonable. On the way out do not fail to take the "Cody Road"—the eastern entrance for there is nothing in the Park more beautiful and inspiring than the glorious mountain scenery along that Government-built automobile road to Cody where a comfortable and home-like Burlington train awaits you.

Let me tell you all about it and help you plan your trip so that you can get the most out of it. Glad to do it—what I'm here for. Call or write for a "Yellowstone" folder.

Alex. Stocks, New England Pass. Agt., C. B. & Q. R. R. Co., 284 Washington street, Boston.

The exhibits at the fair will be in three classes, vegetable, commercial and canned goods and preserves. The vegetable exhibit will be divided as follows: 1, farmers; 2, city home gardeners, and 3, children's gardens. The commercial section will chiefly consist of exhibits of seeds, farm implements, etc.

It is expected that over \$1000 will be given in prizes, the children's department receiving its large share of the awards. The show will have music and special attractions and will be absolutely free to the public. Every grange in the district will be asked to stir up enthusiasm, and it is expected the fair will prove both interesting and instructive. Further details of the coming event will be announced later.

## CONCRETE HARBOUR POINT THE WAY TO NEW TYPE OF SHIP-GOING VESSELS

War as a terrific driving force behind the development of all arms of transportation, under stern necessity, appears to be creating the concrete ship.

San Francisco shipping men have subscribed \$25,000 each to build a concrete vessel in that harbor. From this construction it is expected that subsequent steps will develop the concrete ship as an effective means of rapidly increasing the number of freight vessels in service.

The ship will be built at Redwood Harbor under a secret process developed by Kenneth McDonald, Jr. and his brother, Alan McDonald. It will be 300 feet long, 45 feet beam and 24 feet deep. The process is said to give the concrete the tensile strength and elasticity of steel. Naval engineers and architects have passed upon the plans. The company which is being formed by way of patriotic contribution to the government includes Leslie Conyn, John A. Hooper, E. A. Christensen and John Lawson.

The widespread interest which the subject of concrete ships is attracting has brought a light number of instances wherein concrete has been successfully used in the construction of barges. One barge, known as the "Pioneer," has been in use on the Welland Canal since 1910. This barge is 30 feet long, 24 feet wide, 7 feet deep, weighs 150 tons, when loaded draws 2 feet 8 inches and when loaded draws 3 feet 8 inches. Mr. J. L. Weaver, engineer in charge, says that this barge tows a little heavier than the wooden barges which they have in use on the canal but that this is due to the construction of the barge rather than to any cause relating to the material used.

The "Pioneer" was constructed of 1 part cement to 2½ parts fairly coarse sand. No coarse aggregate was used. The thickness of the bottom, walls and deck is uniform, being 2½ inches.

Although the "Pioneer" has been in use since 1910, not a trace of decay has appeared. It carries on one side the marks of a severe bump received in year or two ago. Aside from this there is no other mark on the barge showing cracks of a similar size, and even from this spot there is no leakage.

The construction of this barge was under the supervision of Mr. Weller who inaugurated the use of reinforced concrete poles which are now so rapidly superseding the old wooden ones in electrical transmission. Mr. W. H. Sullivan, assistant superintendent engineer, made all calculations and designs and personally looked after the construction of the vessel.

The concrete ship seems only a further development of the concrete barge. Concrete lighters have been used for the past six years on Chesapeake Bay for the storage of coal, gravel, etc. With such a craft, experience has proven, engineers say, that there is no necessity for caulking and painting, that the material is small and that there is no danger of decay. Barnacles, it is said, will not collect on a concrete hull.

Concrete barges have been in use on various sections of the Panama canal since 1910. Vessels, which are more like ships than barges, have been built of reinforced concrete in Norway and the American consul-general at Christiania, describes a plant at Moss, in Norway, where vessels of 3000 tons displacement are now being built.

The presence of the necessary material for a concrete vessel at so many convenient locations would make it possible to provide quickly a large tonnage. Engineers say that the progress in the construction will be faster than with ships of steel or even wood.

In view of the urgent need which confronts the United States for increasing the merchant marine, engineers, shipbuilders and the shipping board, are giving the subject of concrete ships serious consideration. From the evidence at hand it would seem that marine construction has entered the era of concrete.

A robin will eat while yet a nestling, every day its own weight in insect food. They devour greedily cutworms, inchworms, mealworms—almost any soft bodied non-hairy caterpillars.

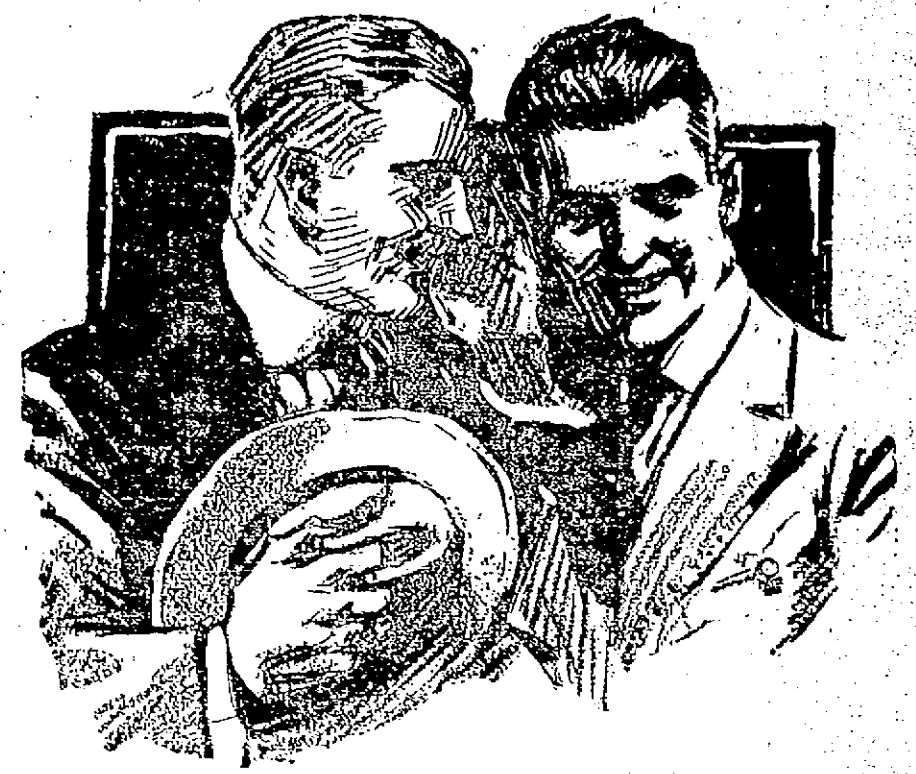

**BOSTON COLLEGE SCHOLARSHIPS**  
In the annual competition for four free scholarships in Boston college this year in which 300 young men from more than 100 public and private schools competed first and second honors were captured by Patrick and William Koen, pupils of the Xavier Brothers' school in Somerville. Similar honors were won in 1915 and 1916 by the same school.

## LOWELL SOCIALIST CLUB

The regular meeting of the American branch of the Lowell Socialist local was held last night. One new member was admitted, Henry F. and Joseph Murphy will be the speakers next Monday night in Jackson street, and on Wednesday night H. C. Tanner, from the Pacific coast, will speak on "Economics and Socialism" at the same place.

Walter McLeod of Ohio gave an interesting talk on "Proportional Representation."

**AN ABANDONED FORD**  
A Ford runabout bearing the registration number "A1113 New Hampshire" was found abandoned near the dwelling of W. M. Hardy in Billerica last night.

Mrs. Luther Burbank, wife of the distinguished plant scientist, who devotes practically all her time helping her husband in his work of increasing the world's food supply. The Burbanks have been married just a year, and live at Santa Rosa, California.

#### SERVANT GIRL SHOULD NOT LIVE IN HOME OF EMPLOYER

BY JACK JUNGMEYER

"If you must keep a maid, don't have her live in the home. It's too expensive for both housewife and domestic, and is fair to neither."

This is the advice of Mrs. Luther Burbank, wife of the celebrated plant wizard, who believes she has solved many of the servant problem perplexities.

"To get the best class of help, and cheerful, efficient service," she said, in the first newspaper interview ever granted, "arrange a working day schedule such as most other employees have, and insist that the maid have her own lodgings."

"This arrangement takes women out of the servant class. Their feeling of independence results in far greater satisfaction all around. They go home to their own life and interests every evening and return with renewed energy and interest in their tasks next morning."

It pays, in more ways than one. Wages in this case will have to be a little higher, but as a matter of fact it is in the end the cheaper course for the housewife.

"You serve the help but one meal a day. She takes care of her own laundry. You are not giving up a room to her. She is not, as in the other case, a boarder at your home."

"And the night shall be filled with music. And the cares that infest the day Shall fold their tents like the Arabs And as silently steal away."

And with the cares that stole away from Camp McGuinness at South Framingham where the Ninth regiment is encamped, so stole away last evening a large number of soldiers to town and to their homes, on leave, of course, for yesterday was pay-day for the Ninth regiment, and after the ghost had walked through each company street the regiment was transformed into a bunch of millionaires.

But all didn't run away to enjoy their month's pay; hundreds remained in camp and those who did were

located on the old camp ground in South Framingham, the scene of many a glorious time in the good old days of the annual encampments of the militia, when the rules weren't terribly strict. But now it is old-fashioned and out of date as compared with the much more sumptuous affairs accorded the Sixth at Camp Durling at the other end of the town. The tents in which the Ninth are quartered will never see service beyond Framingham, according to report, as they have been condemned. The visitors were received at Co. M's street which was decorated with Japanese lanterns. At the end of the street a piano of the "Inpianum" variety, ground popular music, provided over by a talented member of the company. After Capt. Christian had bade the visitors welcome, it was decided that the string was to play for an entertainment and everybody repaired to the illuminated ring in front of the Y.M.C.A. tent where the boxing bouts are held. Prior to the opening of the Lowell program some good boxing bouts were enjoyed, one of the participants being a rookie who after serving in the trenches abroad had come to this country and enlisted in the Ninth. Another feature was the tin-cup bout, a most amusing sport introduced by the boys of the Company M and taken up by the entire regiment. Two men are equipped with boxing gloves and tin cups and the blindfolded, standing motionless on their hands and knees. At the call of time, rapping the tin cups on the mat to show each other where his opponent is located, grope about the ring and when coming together each bangs away at the other with his free hand. When they get out of range of each other the referee cries: "Sound off," whereupon each raps his cup on the floor and the other gets the cue and proceeds in the direction of the count, usually wallowing the air in all directions until his mailed fist connects with his opponent's face or body. The bout was most amusing.

#### Mayor O'Donnell Speaks

About 8.45 it was announced that the entertainment would continue until 9.30, when lights were to go out. Capt. Christian received a "hand" as he called to order and introduced Mayor O'Donnell. The latter made a rousing speech on the glorious record of the Ninth regiment of Massachusetts from the days of the Civil war and expressed confidence that wherever sent the boys of today would carry out the grand traditions of the past. His Honor received three cheers as he closed his remarks. Commissioner Donnelly had a lengthy program prepared, but was obliged to curtail it somewhat in order to get within the time as the boys demanded encore from those who appeared out from the Y.M.C.A. tent and lifted onto the stage in Jig-time by a crowd of husky soldiers who could qualify as expert piano movers if they ever needed that kind of a job.

William Paul McCarthy, Lowell's celebrated pianist, took charge of that piano and did a most accomplished job as accompanist. John "Roundie" Roane was the first at bat and he made a hit with a vocal solo. "The Boat Song" was sung by Miss Kate Shannon and another by Mrs. Mary Dillon. Doherty, both of whom sang, well and versa there with a little "unusual" a la Hawaii, that charmed the crowd.

William F. Thornton made a decided hit with his Bryan's Cross of Gold speech, assisted by the audience. Mr. Thornton explained that the oration was ineffective without the cheers of the multitude, and bade them all cheer lustily each time he extended his right arm. Did they cheer? Struggling soldiers from the street, street cars, and tents came rushing over to participate in the tumult and Mr. Thornton received an added cheer as he concluded. A crowd of nearly 1000 healthy soldiers cheering as a man certainly can make some noise.

James Daley sang a song and then played his Irish pipes. First he played "Believe Me" with a classy accompaniment by William Paul, while Mrs. Nora Regan Longtin sang the verse. Then Daley switched onto a jig and Mrs. Longtin and Nettie Roberts stepped a graceful "break-down" that had all the crowd "going."

Walter Davis, the "nut" comedian, had the boys with him when he rendered "Huckleberry Finn."

Miss Thora's Big Hit

One of the biggest hits of the evening was charming little Miss Alice E. Dion, who sang "When Rosie Macaula Learned the Irish Jigs," an Italian dialect song, with a graceful little dance thrown in. Miss Dion received a cheer that equalled the tumult of the Bryan auditors. She repeated the song and would have been singing there yet had time permitted.

A beautiful number which was thoroughly appreciated by all present was the duet rendition of "The Rover," by Misses Etta Thompson and Nettie Roberts.

Toward the close of the entertainment Mrs. Nora Regan Longtin gave feature number of the evening, "The Story of the Flag We Love," ear-

rying in her hand the stars and stripes. Mrs. Longtin was never in better voice and she sang most impressively, the soldiers uncovering as she waved the flag.

There were other numbers, Mr. Donnelly and the Honey Boys, but at this point the master of ceremonies was notified that the program would have to come to a close, whereupon David Boyle assisted by the Honey Boys sang "America, Here's My Boy," with fine effect.

For the closing number the entertainers in chorus sang "The Star Spangled Banner," every man in the big audience standing at salute, the civilians with uncovered heads.

As the lights went down the soldiers giving three cheers for Lowell went down the company streets, while the Lowell people resumed their autos for the homeward trip.

#### Incidents of the Visit

When William F. Thornton appeared on the stage a voice in the crowd cried out: "Cheese it, fellows: here's the true officer!" And a moment later another voice was heard asking: "How is it; all right to play yuck tomorrow?"

Framingham presented a busy ap-

#### TODAY'S FASHION HINTS

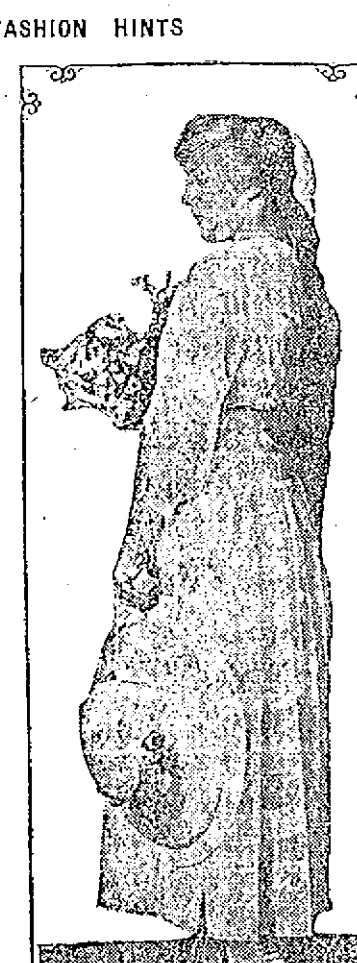

Polka dots came overseas from Paris weeks ago. No items of woman's apparel has escaped the contagion. Silk hosiery is all broken out with them, and milliners crown and band the smartest hats with them.

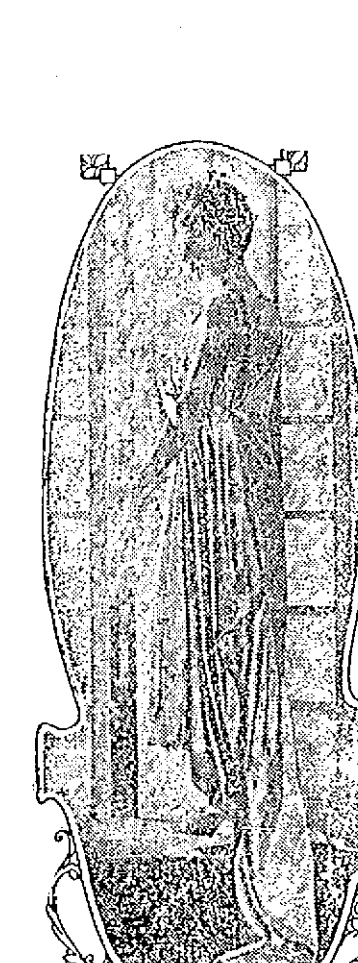

Boulard has a most pronounced case of the epidemic. White dots on blue and blue dots on white are uniquely combined in a most stunning summer frock.

What could be more desirable for mountain wear than this emerald green and white silk sweater "cooled" with collar, cuffs and belt end of white angora? Observe the admirable length. No bobbed effect here.

White not tucked as to skirt and shirred into a yolk richly braided with outside of the cuffs. A delicate little bolero make a charming party gown for a young girl.

Coral satin, contrasted with black velvet shoulder straps and draped wonderfully in clinging folds, gives this handsome dress gown a gorgeous red rose in the corsege adds even more dash.

# GERMANS CHEER U. S. GUNNERS

WASHINGTON, July 20.—At 1 o'clock on the morning of June 12 the American steamship Moren was sailing along the coast of Spain in an attempt to make an Italian port when her engines broke down and she was becalmed. Three hours later a German submarine sighted her and opened fire.

The armed crew under Chief Boatsman's Mate Andrew Copassaki returned the fire and for two hours a battle raged. The Moren was hit 45 times. Her merchant crew sought to desert her, while the naval jackies continued the fight. Copassaki stood by his guns until one of the burning ship drove him and his men from the other. Then they took to the

boats and were congratulated by the submarine commander for having put up the gamest fight that had ever been made by the crew of an armed ship.

Sec. Daniels yesterday made public the complete and verbatim story of the official report made to the navy department by Copassaki. It represents the most thrilling story that the American navy has staged during the present war and will probably go down with the best legends of the service. It follows:

"At about 1 a. m. on June 12, the engines stopped. I was awakened, and asked the captain what was the trouble. He said something was wrong in the engine room, and the engines had to be stopped. They remained stopped for about three-quarters of an hour."

"We were attacked by a submarine at 4:05 a. m. on June 12, 1917. She was off the port quarter, about 5000 yards away. She fired four or five shots before we located her. We swung around until our stern faced the submarine and returned the fire at a range of about 7000 yards."

"The submarine stayed about 5000 to 9000 yards away and for that reason

our shots fell short. We sent out a radio call for assistance."

**Ammunition Running Low**

"After a half-hour fight we were hit in the gasoline tank aft, and a fire started. It was reported to me that the ammunition aft was running low. I immediately lined up the forward gun's crew with the merchant crew to pass

**SILK CAMISOLES**—Ladies' Crepe de Chine Camisoles, made in a large assortment of new styles, trimmed with very fine lace, at 50c and \$1.00

ammunition from forward aft. About an hour later fire broke out all over the ship and it became impossible for the men to pass any more ammunition aft. When I saw such was the case, I happened to be about the mainmast, and I called for one of the gun's crew to forward with me. I reached the bridge, being burned on the way. The man was unable to follow. About this time the steering gear was shot away and we started to go around in circles.

"Coming down on the bridge I saw the captain and the boatswain, who was holding the falls ready to lower the lifeboat. The captain said to come and get in the lifeboat, as it was starting to burn. I told him to wait. He said he would hold the boat as long as possible for me.

"I then noticed two of the gun's crew in the lifeboat. I ordered them to get out and come with me. We went forward and manned the forward gun, with which we fired four shots before the firing pin went out of commission. "When the submarine saw our fire speed astern, so that we could not see her. Then, as we could fire no more, and as the captain called that the lifeboat was burning, we got into the boat. "Meanwhile, the engines of the ship had not been stopped, and she was going around in circles, which she continued to do for about a half hour after we left.

### Lifeboat Upsets, Two Drown

"The lifeboat upset when it hit the water and two of the merchant crew were lost. We swam around until we were able to get to the capsized boat, turn it over and climb into it.

"I found out afterward that soon after I went forward, during the fight, the after gun's crew and merchant crew left in their boat. The boat was becoming too hot and would have burned the boat. I also found out that the first mate of the ship left much earlier before any of the other boats, with three men, leaving behind the men who were supposed to go in that boat.

"The submarine called the boats alongside and congratulated us, shook hands with the captain and told us that it was the best fight they had ever seen any merchantman put up. He asked if there were any Englishmen in the boat. I told him no.

"The Germans treated two men who had been wounded and returned to the other boat. The commander of the submarine said he would have loved us toward the beach but for the fact that we had called for assistance.

"The submarine then left us, and commenced firing again into the Moren. She finally hit the Moren's engine room which stopped the engines. We then lost sight of the submarine.

### German Cheer Spaniards

"About an hour after the submarine left us, we were picked up by the Spanish steamer Valbanera (about 8 a. m., June 12), which had received our call for assistance. The captain of the Valbanera told me we were then about 17 miles off Cape de Palos, Spain.

"Shortly after the submarine came up near the Valbanera. The officer of the ship got in a small boat and went over to the submarine. He returned to the ship and the submarine went around the ship, the submarine crew cheering, and the Valbanera's crew also cheering, and then steamed away.

"While on the Valbanera we were given every consideration, dry clothing, good food and good sleeping accommodations.

"We were landed in Barcelona, Spain, at 8 a. m. on June 13. Reported to the American consul on arriving, who fitted the crews with clothing.

"During the fight, which lasted a little over two hours, we fired about 150 shots, but as the steering gear was shot away and the ship was going around in circles we could get no range. The submarine fired about 200 shots while we were on the Moren, of which about 25 found the mark."

Copassaki's home is at 2095 Daily avenue, New York. Other members of the crew were Gardiner Conover of Lincolnton, N. J.; George Schall, West Orange, N. J.; Edgard C. Smith, West 142d street, New York; Joseph Kennedy, Passaic, N. J.; Ross Biddle, Evans Mills, N. Y.; and E. J. Whymann, Bayonne, N. J.

## SOCIALISTS MAY NOT TAKE A CHANCE SUNDAY

BOSTON, July 20.—There may not be a repetition of the "riot" of Sunday, July 1, next Sunday, for the simple reason that the meeting and accompanying parade of socialists, scheduled for Boston common Sunday afternoon and duly sanctioned by Mayor Curley, may be abandoned altogether.

Last night James O'Neal, state secretary of the socialist party, announced that there would be a meeting of the executive committee of the socialist party and the workers' council of Boston tonight for the express purpose of deciding what action shall be taken relative to Sunday's program.

Secretary O'Neal requested that the announcement of the "peace" meeting arranged by the socialist party and the workers' council of Greater Boston on the balcony of the Boston common for Sunday afternoon at 1 o'clock, with the list of speakers, be withheld until the executive committee had acted definitely on the matter.

In explanation of the contemplated conference of socialists in regard to the advisability of adhering to the original program, Mr. O'Neal frankly admitted that a letter sent by United States Dist. Atty. George W. Anderson to Mayor Curley and the general prosecutor's statement, issued later in the day, was directly responsible for the calling of the meeting of the executive committee.

United States Dist. Atty. Anderson sent copies of the letter he addressed to Mayor Curley to Gov. McCall, Police Commissioner of Boston, and the Hon. R. Edwards and Commandant W. R. Rush of the navy yard, and while he refused to make public the contents of the letter, he stated that any of those who received the letter were at liberty to make its contents public if they deemed it wise.

Dist. Atty. Anderson's statement concerning his letter to Mayor Curley was as follows:

"It is true that on July 17 I wrote Mayor Curley a letter in response to his notice that he had licensed a socialist meeting on Boston common on next Sunday. It is also true that, in response to his telephone inquiry this afternoon, I told him that I had no objection to his giving that letter to the press. If he does not choose to do so, I assume it is for reasons which, in his judgment, are of public moment. I therefore only add that I pointed out in a part of the letter that the entire responsibility for the maintenance of public order and safety rests with the state and municipal authorities; that the sole function of the federal government is to obtain evidence of, and institute prosecutions for, breaches of federal statutes; that the federal authorities have no control either over the holding of meetings or of any other matter pertaining to the situation of Boston."

"I have neither the occasion nor the qualifications to discuss the extent to which the police powers are here divided between the governor and the commonwealth, the mayor and the police commissioner of the city of Boston."

Secretary O'Neal last night ridiculed the statements to the effect that trouble more serious than that of Sunday, July 1, might be anticipated should the parade and meeting on the common be carried out. He grandly as false the insinuations that armed anarchists intended to participate in the parade and attend the "peace meeting."

"I think it is unfair of Dist. Atty. Anderson to intimate that anarchists would be present at our meetings. The police arrested so-called rioters a few weeks ago, but no claim has been made that there were anarchists among them. Until the executive committee discusses the situation Friday night, I cannot say whether the program will be carried out as arranged," said Sec. O'Neal.

TOMMY MURPHY WINS TAVERN STEAK

CLEVELAND, July 20.—Before the largest crowd that ever attended a grand circuit meeting at North Randall, Thomas W. Murphy drove his bay gelding, Royal Mac, to victory over a big field in the 2.14 trot in the \$3000 Tavern "Steak" yesterday afternoon.

Walter Cox sent his wonderful mare, Mabel Trask, around the mile track to victory over "Pop" Geers' St. Frisco, and McDonald's Zomrect, in the Jackpot Sweepstakes, setting a new season's trotting mark of 2.05 1/2.

These were the big events, and thrills of the biggest afternoon of the week. Murphy went into the "Steak" second in favor with the followers of the game. W. J. Leyburn was the favorite, but did not take a heat.

Murphy, winner of many a trophy on the grand circuit, sent Royal Mac around punched with the rest of them in the first mile until nearing the stretch. Then the gelding showed wonderful speed and came in handily, making the mile in 2.05 1/2, with W. J. Leyburn second and Early Dreams, third.

The time of Royal Mac in the second heat was 2.07 1/2, while Early Dreams took the third in 2.08 1/2.

Mabel Trask, the champion money winner of 1916, put up a splendid race in the Jackpot Sweepstakes. There were scores who thought Geers would win with St. Frisco, and to many it looked as if Geers had taken the first heat. But Mabel Trask won by the closest possible margin and made the mile in 2.05 1/2.

In the second heat St. Frisco got away to a good start, but Mabel Trask won again, the time being 2.06 1/2.

A big field had entered the 2.05 pace and the track was in excellent condition. Adios Guy was the favorite, but in the first heat Peter Look showed a great burst of speed and made the last quarter in 30 seconds, the fastest quarter run off this week. He won the heat in 2.05 1/2. In the second heat Adios Guy went around the oval in 2.03 1/2, the fastest mile paced this year. The Savoy was second again, with Peter Look third. Adios Guy then went out and took the third heat and the race in 2.05 1/2.

Lon McDonald took the second division of the Fasig Sweepstakes in two straight heats with Harvest Tide, 3-year-old daughter of The Harvester. Trujolia was the favorite, but finished second and fourth.

John R. Braden took the 2.17 pace in

straight heats. The summary:

SOLITARY FAVORITE WAS ROAN HAL

WORCESTER, July 20.—About 3500 persons saw Roan Hal, the Hartford pacer, driven by Harry Brusie, set a new track record, 2.07 1/4, for the Greendale track yesterday afternoon in winning the free-for-all. The former record was 2.08 1/4.

Roan Hal was the only favorite to live up to expectations. The only rub he got was in the third heat by Maj. Woolworth, May Bird, a consistent winner for Frank Fox, was beaten for the first time this season in the Chamber of Commerce 2.17 pace by Vanclia.

Little considered before the start of the race, Lady Gamage was second choice but could find nothing better than third.

At the spring a surprise in the 2.19 trot with a bay mare, Lucy Clover, winning in straight heats, the second of which was in 2.12 1/4.

Birdie Aleyo won the opening heat

of the 2.14 pace in 2.10 1/2, but failed to beat the flag in the second.

Today's card has for its feature the 2.11 pace. The other two races will be two divisions of the 2.30 trot.

The summary:

Free-for-All Pace  
Purse \$1000.  
Roan Hal, pgr, by Hal Defacto (H Brusie) ..... 1 1 1

Everybody who has read The Sun's Sunday Supplement, published on Saturday, has words of praise for it.

Why Fatima is today the only high-grade cigarette at a moderate price 20 for 15¢

—a wasteful, costly box.  
—or fancy, expensive tips.  
—or "showy" packing or frills.

Fatima does NOT give you

But Fatima DOES give you

—a perfectly balanced Turkish blend—comfort while you smoke and afterwards, too.  
—absolute purity.  
—more sincere quality, better tobacco and more quantity for the money than any other high-grade cigarette on the market.

Remember, that in addition to purity, good taste and big value, Fatimas offer you something else—they are cool and friendly to your throat and tongue, and they leave you feeling keen and fit even though you may smoke more often than usual.

Lyggett & Myer Tobacco Co.

FATIMA A Sensible Cigarette

BY WINONA WILCOX

Vacation time is the open season for never finding out anything about her. He doesn't know that she is always in love with love, so much so that she never can tell the genuine from the synthetic.

So she seizes with glee upon any love that is offered, even that poor, weak artificial substitute—spooning.

Woman at any age has always in mind a love that is passed, or a love that she missed, or a lover to come, which she misses, or a lover to come, which she misses, or a lover to come, which she misses.

DRAFT DRAWING FAIR TO ALL

WASHINGTON, July 20.—This is the day of the nation's selection from among its sons to fill up the ranks of the armies of democracy.

Who shall go first among the ten millions registered for service is to be determined by chance in a carefully devised lottery.

The drawing of lots is the climax of the nation's effort to build up a great military force on the principle of universal service.

Already President Wilson has formally ordered to the colors 657,000 of the men for whom lots are drawn today and most of them will be in training by mid-September. To provide that number physically fit and without any insurance calling for exemption the war department will summon for examination the 1,374,000 who are found after the drawing to stand at the head of the muster roll.

If more are needed to provide a quota of 637,000 soldiers, those standing next in order will be summoned. So, too, will the choice pass on down the line when future increments are ordered to the colors by the president.

Every precaution was taken to make the drawing today absolutely fair to everyone of the registrants. An elaborate scheme worked out in weeks of study to save time and labor and crowd the entire process into an hour was abandoned last night when it was discovered that registration boards in some sections had misunderstood the instructions for numbering local registration cards. Officials declared today that the change to a simpler but more laborious plan left no possibility of inequality or fraud.

Although 9.30 a. m. was set for beginning the drawing, it may be late tonight before it is finished. Under the plan adopted 10,500 numbers must be drawn, one at a time.

DR. T. J. KING, DR. J. E. ROBILLARD, One of Lowell's leading Dentists.

STATEMENT OF DR. ROBILLARD:

I have practiced dentistry in Lowell for years and during that time I know I have given satisfaction to the people of this city. To make the big success that my ability and ambition demands I am obliged to avail myself of certain wonderful improvements now being used by Dr. King, and I do not hesitate to admit the superiority of the King System of Painless Dentistry. I hope my patients will agree with me that I am doing the right thing in joining with a reputable dentist who has made an enviable position for himself and his methods in our city.

IF I HURT YOU DON'T PAY ME

No pain and a small per cent. over the cost of the best materials money will buy is a combination that cannot be beat. Get the other fellow's price for his best, then compare it with mine, is all that I ask you to do.

If you want the best—a set of teeth that defies detection in the mouth—the Natural Gum is the set you must have. Used in my office exclusively.

### Sixth's Chances of Going to France Unaffected by Removal to Ayer

BOSTON, July 20.—Washington wired Brig. Gen. Clarence R. Edwards, commander of the Northeastern department, yesterday afternoon that the 5th Division of the National Guard, the New England troops, will become the 26th division of the Regular Army; that the men will go to Camp at Fort Lee, N. C., and that the camp will be known as Camp Green. Rumors that the 6th Massachusetts regiment was sent to Ayer with the intention of keeping it there during the war were emphatically denied by Gen. Edwards yesterday.

"This regiment," said he, "is as

likely to be sent to France as any other organization. Its chances remain unaffected by its removal to Ayer. The regiment was sent to Ayer because the government had the money there with which to make it comfortable, which it could not be in its former quarters. The whole regiment was sent so that guard duty might be light on each individual.

This morning Gen. Edwards goes by automobile to Fort Adams, R. I., on an inspection tour. He will be there all night. Gov. Beekman of Rhode Island has asked him to be his guest over night.

Capt. Hugh S. Brown, C.A.C., at the Northeastern Department Headquarters, yesterday said that most of the second lieutenants or subalterns of the second line regiments, for which competitive examinations will be held Monday and Tuesday at Fort Adams, are exceptionally well qualified. Many of them are from the Harvard Reserve Officers' Corps.

The staff of Fort Banks was yesterday announced as captain of the examining board here. Simultaneous competitive examinations will be held at several points, and it is expected that several hundred vacancies to be filled.

A conference took place at the Northeastern Department Headquarters yesterday between Gen. Edwards and Commandant Rush of the navy and several other officers. The purpose was to provost guard and the new naval guard. One soldier and one sailor will travel together henceforth, with the sailor in uniform and the soldier in uniform of the federal service.

The Northeastern Department commander-in-chief takes up with New England governors and plans to have the home guards and other to federal organizations distinctive uniforms. The uniforms will be obtained from those of federal service men.

## 1892-Twenty-Five Years-1917

1952 - 1953

TOM CAN TELL HARRY ANYTHING, HE'S AS BACHELOR

## ORGANIZED PLAY

Continued

disposition was accepted with as much solemnity as that of a supreme court justice. The scene was the South common playground, and the episode mentioned here is but typical of the various other playgrounds throughout the city.

Mr. Thomas A. Ginty is the supervisor on the common, and from a brief talk with him one could easily see that he was fully enjoying his work. As one entered the common he could not help but remark the absence of the older boys and girls on the playground this year - the young folks seem to have full sway. This is explained by the innumerable opportunities for work which are offered to boys and girls this summer on account of the demand for help on the farms and in the factories. One rarely saw a child over 11 or 12 years of age, and the majority were below these ages. For this reason the younger people are able to command much more attention from the teachers than in former years when it was almost impossible to keep the older ones from "hogging" it all. The average attendance on the grounds this year compares favorably with that of last year, however, and there is certainly just as much enthusiasm being shown by both the instructors and children.

## Military Drill for Children

As is usual in every public activity at the present time the war is playing no little part in the playground work. The introduction of military drill, sewing on Red Cross work, and patriotic exercises which start off each

day's work are all attributable to the present situation, and the young children of the playgrounds seem to reflect the true nature of the American people as a whole. And they are well able to do this because practically every nationality present in either the United States or the countries allied with her is represented on the grounds. On the Lincoln school grounds there is even a little Mexican, but he pleads that he is wholly in sympathy with Uncle Sam.

The attendance on the South common averages from 150 to 200 a day, and this number is sufficient to keep the six teachers busy. Mr. Ginty, as supervisor in charge of the boys, is assisted by Miss Mary M. Cowell, who has charge of the girls. Miss Bawita Lawler and Mrs. Eva W. Mansur are assistant instructors and are present the whole day, while Miss Dorothy Driscoll and Miss Gladys Taylor are present only in the afternoon. The playground opens at 9 o'clock, and the first thing on the program is the patriotic exercises including the singing of "The Star Spangled Banner" and the salute to the flag. After that comes the setting up of exercises and marching movements which are new features of playground work in Lowell. As yet all the military movements are done free-hand, that is, without any equipment, but the city has voted to furnish the children with wooden guns, and as soon as these are received the interest in military work will be greatly heightened. After the preliminary exercises Miss Cowell takes charge of the girls, and the boys look to Mr. Ginty for instructions. A baseball game, horseshoe, throwing, basketball, running events, and the thousand and one sports dear to the heart of a boy are taken up

and from 9:30 to 11 the common resembles closely an Olympiad.

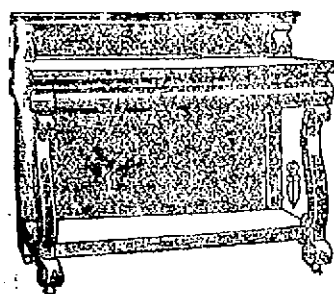

## Sports For Little Girls

The girls have their sports, too, although they are not as strenuous as those of the sterner sex. Medicine ball throwing, dancing, and games of all sorts are intermingled judiciously with the more continued work of sewing. Then Miss Louise E. Mahoney visits the different grounds at frequent intervals and tells the children stories. Miss Mahoney's visits are always eagerly awaited. Another popular feature of the South common grounds is the proximity of the baths in the Eliot school. The children of this district have the advantage of being able to use the baths every day, while the other playgrounds have only one day a week. The wading pond on the South common, in past years an attraction which drew children from all over the city, is non-existent this year. It had been planned some time ago to cement the bottom of the basin, but as yet this has not been done, and at present the place resembles the Sahara desert so far as dampness goes. When this feature is restored it is thought that the common will be even more popular than in past years. At the present time the boys are bathing in the Western canal, which is both dangerous and unsanitary. It is impossible to keep the boys out of the water, and when a safe place is not provided they naturally seek one that is not safe. Besides this interference seriously with the playground work, because on a warm summer afternoon the boys lose all interest in the activities on the grounds and rush to the water. After that the supervisor loses all control over them. When this feature

is remedied the South common playground will be a place for the work which it desires to accomplish.

## On North Common

The North common was the place next visited by the writer, and here the activities were very similar to those of the other common. Thomas F. Pyne is the supervisor here, and his assistants are Miss Mary E. Carolan in charge of the girls, Miss Helen A. Castles, Miss Catherine G. Murphy, Miss Mae G. Sullivan in charge of sewing, and Miss Lucille Washburn. Mr. Pyne stated that the North common has the busiest time of any of the playgrounds because of the large attendance there. An average of 300 children is on the ground daily. A number of new swings have been added to the equipment, and these together with "tellers" and sandbanks provide no little enjoyment for the children. The regular program of work is carried out here much as on the South common, and the military equipment is eagerly awaited. Games between the various baseball teams on the common

are arranged by the supervisor, and there is much rivalry between the several "gangs." The children on the common have their baths once a week at the Eliot school, but in the meantime many of the young gentlemen prefer to keep themselves immaculate by bathing in the various swimming places near-by. The girls here are doing the regular work in sewing and games, and are making much progress in both lines.

## Alken Street Grounds

The Alken street playground is probably the most segregated of any. It seems to be near nowhere. Cool breezes from the Merrimack help to neutralize the discomfort of warm days, and several shelter houses have been erected to provide relief from the sun. Mr. John A. Walsh Jr. is in charge of these grounds, and his assistants are Miss Mary E. Haggerty in charge of the girls, Miss Florence E. Archibald, Miss Ola Nichols, and Miss Helen E. Hickey. A regulation diamond is laid out on the grounds and bleachers for the "fans" are at hand. The children on these grounds

are mostly of French parentage and many exclamations in French were heard by the writer as he walked about the grounds. An effort is being made to have the children speak English and is working out successfully. Miss Haggerty is delighted with the work which the girls are accomplishing in the sewing line, and already eight dresses have been made. Swings and sandbanks are provided here also and an inter-club baseball schedule arranged that his diamond warriors may display their ability. They have already played several games with the North and South common teams. It is expected that a regular schedule will be agreed upon by the different supervisors in the near future. The main difficulty with the Alken street grounds is the distance from the baths in the Eliot school. The boys have the river right at hand and prefer this to "scrubbing," while the girls are almost unable to stand the long walk to the school on a warm afternoon. The teachers are still striving, however, to solve the

problem and a remedy for the situation will undoubtedly be forthcoming in a short while.

## Walker Street

The Walker street playground, a comparatively new one, is situated on Walker street between Broadway and Middlesex street. Mr. Francis McKay is the supervisor here and he is unassisted. Only boys use the grounds and the daily attendance averages between 50 and 75. A small baseball diamond is laid out and much of the time is spent in the national game although the other assigned work is not neglected. Yesterday afternoon the boys were engaged in making kites, and Mr. Harvey B. Greene of the park commission has offered a cash prize to the boy making the best kite. Here again the lack of swimming facilities causes the boys to venture in dangerous canals near-by.

## Chambers Street

The Chambers street playground in charge of Mr. Clarence A. Cunningham is one of the older grounds of the city. The usual program of exercises and sports is carried out here under the direction of Mr. Cunningham and his assistants, Miss Mary J. Renard, who has charge of the girls, Miss Ethel Lombard and Miss Mary Soule. The attendance here is wholly satisfactory. The usual trouble in regard to the bathing question is experienced.

## Paige Street

The Paige street ground is right in the heart of the city. Miss Harriet L. McAloon and Miss Natalie M. McQuaid are the teachers here. At first the boys were some annoyance from older boys of the vicinity but this has been done away with, and now the playground discipline is very satisfactory. The girls are in the majority here and the average attendance is between 80 and 100. Swings and shelter houses have been provided. The girls are busy at present working on dresses.

## At Lincoln School

At the Lincoln school grounds Miss Margaret T. Donagan is the supervisor, and Miss Anne Z. Reynolds is the assistant. Although there is a number of swings on hand more to be added, and Miss Donagan said that she believed the swings were the background of any playground. The children will stay on the swings when they won't do anything else. Here again the girls are predominant, but there has been some trouble with the older boys. It has been suggested that a man instructor be assigned to take care of the young men. The attendance early warrants it. Sewing is the chief activity at the Lincoln school ground, and from some of the pieces exhibited yesterday it was easy to see that the children were accomplishing a lot of useful work.

## Fayette Street

Miss Gertrude Lyons is in charge of the Fayette street grounds, and with her assistant, Miss Gertrude Lyons, is carrying out much the same work of the other grounds. At the Lincoln school Miss Irene Cummings is the supervisor and Miss Henrietta Condon the assistant. The usual exercises, games and sewing are being carried out here.

Here, in short, is a resume of the work being done on the Lowell playgrounds in 1917. A number of features to come off in the future are being prepared on all of them, and mention of these may be of interest to the parents of the children who are attending the playgrounds. On the closing day of the year it is planned to hold a grand pageant representing the history of Lowell from the earliest times to the present day. In order to do this costume must be provided, music learned and the various dances to be used must be practised. At present the supervisors are working on the making of costumes and the other features will be attended to later in order that the parents of the children

## GEN. SIBERT INSPECTS FORCES IN FRANCE

AMERICAN TRAINING CAMP IN FRANCE, July 20 (By the Associated Press)—Major Gen. William L. Sibert went through his entire camp yesterday on the first official inspection tour he has made.

From early morning until in the afternoon he made the rounds and did not call it a day until he had examined each set of quarters and inspected virtually every man in his command. As the army is divided into squads, the majority of which are billeted out with the inhabitants of the district, the task of inspection was a tremendous one and could be accomplished only by the amazing activity of the general, who almost ran his staff off their legs and set a pace obviously stiff for the youngest of the men.

The result of the inspection was apparently satisfactory in the main, for the general criticized seldom, and everywhere he had good words for the results achieved by the troops in clean-

## Joins the Army of Enthusiasts

Well Known Lowell Citizen Now Relieved of His Illness By Plant Juice

There are many things learned from experience. Among them is the fact that stomach trouble, which may be either inherited or acquired, and which produces indigestion, dyspepsia, palpitation of the heart, gas, or a

A. H. ORKINS

bloating feeling, coated tongue, headaches, backache, pains in the side, bad breath, liver or kidney trouble, rheumatism, can be most successfully treated by the new herbar stomach remedy, Plant Juice which is now being introduced here. This truly remarkable preparation is a peculiar combination of wonderful digestive agents, manufactured from medicinal roots, herbs, barks and berries, which are gathered especially for it. That Plant Juice is bearing the reputation established in other cities, it is only necessary to read the statements of local people who have been benefited after they thought there was no relief.

Mr. A. H. Orkins, who resides at No. 16 Ash street, and has many friends in Lowell where he has resided for a number of years, recently gave the following statement:

"I have suffered with stomach trouble for many years. My health was all worn down, and I lost my appetite entirely; my kidneys troubled me all the time, and I had terrible pains in my back. I had indigestion so bad that all the food I ate would ferment and cause gas to form in my stomach. Since I started to take Plant Juice I can eat my food with a relish, I sleep well and have no more pain, and most highly endorse Plant Juice and am recommending it to my friends."

The Plant Juice Man is at Dows, The Druggists, in Merrimack Square, Lowell, where he is daily meeting the local public, and introducing and explaining the merits of this remedy.

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these lovely spots.

Simply get an ounce of ointment—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

Bring up the quarters into which they have moved.

Here and there he found lack of cleanliness and proper sanitation, which he ordered rectified. Occasionally also, in passing in front of the troops lined up for his examination, he found time to stop and exchange a word and ask questions.

The inspection trip began punctually at 7.30 o'clock in the morning, for the general is an early riser, and at noon he returned to his headquarters long enough to snatch a hasty lunch before starting out again.

Rain fell in a steady stream most of the time, but that did not deter the inspection in the slightest.

Gen. Sibert early noted that many of the soldiers were without the regulation bronze button, bearing the letters U. S., which is worn on the collar. Investigation showed that some of the men had actually lost the insignia, while others had carelessly given their button away to admirers.

Three aids were constantly at the general's side taking down suggestions, or while the general's recommendations followed as closely as the general's pace would permit, explaining details and arrangements.

The French residents at various points viewed the inspection curiously but enthusiastically and occasionally cheered the general and his staff.

The day was a partial holiday for the troops, as the inspection relieved them of drill for the period of its duration.

Finally had the general's car vanished on the way to the next inspection point, when the men were hard at work again, mastering the technique of modern warfare.

## 22 COAL PRICE PLOT CASES DISMISSED

NEW YORK, July 20.—Indictments against 22 Virginia and West Virginia coal corporations and operators dealing in smokeless and bunker coal, charging them with conspiring to fix prices and restrain trade, were dismissed by Judge Grubb in federal court here yesterday upon the ground of "prior jeopardy." The same individuals and companies were among

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulitified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

those recently acquitted of similar charges in relation to semi-bituminous coal. Those Virginia whom indictments were dismissed were:

The Houston Coal company; New River Coal company; Smokeless Fuel company; Casner, Curran & Bullitt; Crozer-Poehontas company; Top Fuel company; Chesapeake & Ohio Agency company; Leckie Coal company, Inc.; Poehontas Fuel company; Crozer-Poehontas company; C. C. Blake Coal company; George H. Caperton; Justus Collins; Frank Gilson; Thomas B. Houston; Kuper Hood; Thomas F. Farrell; Robert H. Gross; T. S. Crockett; Oscar M. Doyerie and John J. Tierney.

The final step in freeing the defendants in the government's indictment against Virginia and West Virginia semi-bituminous coal operators and corporations was also taken yesterday.

Papers filed in the federal court by a representative of the United States attorney general withdrew the prosecution proceedings against the Wright Coal and Coke company, Algoma Coal and Coke company, J. C. Beck, Louis R. Page, Jr., J. H. Parrott, William Tamm and several other defendants.

## GERMAN CASUALTIES IN WAR 4,623,307

LONDON, July 20.—The German casualties reported in the German official lists during June, but not as having occurred in June, are given out by the war office as follows:

Killed, died of wounds, 25,810.  
Died of sickness, 3215.  
Prisoners and missing, 38,606.  
Wounded, 55,906.  
The totals of the German official lists since the war began are as follows:  
Killed or died of wounds, 1,032,800.  
Died of sickness, 72,960.  
Prisoners and missing, 591,966.  
Wounded, 2,526,881.  
The naval and colonial casualties are not included.

## PLAN TO REWRITE TEXT BOOKS TO TEACH CHILDREN THRIFT AT SCHOOL

NEW YORK, July 20.—America will be the first nation in the world to rewrite her text books so that the children of this country will be taught thrift in the school room. According to an announcement made today by the thrift education committee of the National Education association, radical innovations in the American school curricula are about to take place.

The lives of James H. Hill, Marshall Field, John Wanamaker, and other great American business men will be studied in the schools, and text books on arithmetic, history, English composition, domestic science and household economics will be subjected to radical changes. For the first time in the history of the world, thrift and personal efficiency will be given scientific consideration in the home room. Not the narrow thrift of mere money saving, but the broader thrift of individual preparedness for practical life will be taught, declares the committee's statement.

This is the sweeping significance of the resolutions adopted by the national council of education at its meeting in Portland last week. The resolutions were written and presented by S. V. Straus of New York, president of the American Society for Thrift. They point out that on account of the war America must from now on eliminate waste of every character; that President Wilson's first message to the public after the declaration of war was on thrift; that the only way to safeguard the economic future of the nation is through a better understanding of thrift which can be made possible only through the school room and that at the forthcoming meeting of the council of education in Atlanta, Ga., the school organization will be expected to have before it a comprehensive plan for the practical study of thrift in the schools of America.

CANOBIE LAKE THEATRE  
Pauline Frederick, the distinguished emotional actress who has won such country-wide fame by her admirable presentation of "Zaza" and "Bella Donna" makes her latest motion picture appearance in the Famous Players' company's adaptation, "Lydia Gilmore," the famous emotional drama by Henry Arthur Jones, which is the attraction at Canobie Lake park theatre this week.

Miss Frederick departs from the adventurous roles which characterized her last two performances and plays the faithful wife and loving mother who goes through unspeakable mental agony to shield her husband after he has proven unfaithful to her. It is a tremendous role, powerful, gripping, intense, and Miss Frederick is ably supported in it by the all-star company of Famous Players.

MEMBERS OF HARVARD ALUMNI SUBSCRIBE \$1,000,000 TOWARD \$10,000,000 FOUNDATION

CAMBRIDGE, July 20.—Members of the Harvard Alumni association already have subscribed one million dollars to-

ward the ten million dollar foundation planned for the university. The alumni committee in charge of raising the fund announced today that in addition to this amount pledges amounting to large sums had been received and that it was believed the entire amount would be subscribed by the end of next year.

## Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

## MR. MILLARD ADDRESSES LABOR COUNCIL

"Proportional representation is the only form of representation worthy of the name," said Walter J. Millard, to the Trades and Labor council at its meeting last night.

Mr. Millard is the field secretary of the American Proportional Representation league and is working to ensure the adoption of that principle by the constitutional convention.

He claimed that as a result of its adoption in Switzerland, civil war has been prevented in the Ticino canton and that the leaders of all the parties in Belgium declare that a return to the old system is unthinkable. Briefly, the proposal is that instead of a district electing one man to the general court, the district is enlarged and as many as 16 are elected. Instead of the 15 who have the highest votes being elected, however, each party or political group that cast one-fifth of the total vote would get a member, two-fifths, two members, and so on.

The speaker said many valuable results follow this method in all the countries that use it. First, every man

who votes knows his vote will help elect somebody and cannot be thrown away; second, each minority party gets its fair share of representation; third, the evil of gerrymandering is done away with; fourth, a majority of the voters cannot be prevented from electing a majority of the members, and a minority party cannot elect a majority of the members.

The state branch of the A. P. of L. has adopted the proposal as the second of its planks which it desires the convention to adopt, and the council last night was urged to ask the delegates from this locality to support it.

## HELD LAWN PARTY

A well attended and successful lawn party was held by the members of the Christian Endeavor society of the First Baptist church last night at the grounds of E. A. Mellen in Bridge street. Booths were located at various points on the lawn and the grounds were lighted with numerous Japanese lanterns. During the evening the Middlesex County Training School band gave an enjoyable concert. Others who contributed to the program were Misses Mellen and Olson, Warren Reid, Harry Pascall and Dixon Cowen. The attendance was large and every one found genuine pleasure in the various attractions. The ice cream, lemonade and candy booths did a good business.

LOWELL JIAN HELD  
John Santos, the Lowell man who was arraigned in the police court at Exeter, N. H., on Tuesday of this week, following an automobile accident Monday evening, in which a party bound from Lowell to Newmarket, N. H., figured, is still held at the police station in Exeter in default of his fine of \$44.05. Spiros Coumetreas, the owner of the car, is held under \$5000 bonds for the October term of the Rockingham county superior court and he was taken to the Portsmouth jail. The condition of the victims of the accident has shown improvement.

**THE PICKETING POST**  
The suffragists who continue to pester the government at this time show a lack of patriotism and of common sense. If they have been without the franchise up to the present, is there any reason why they cannot hold the issue in abeyance until the end of the war? If they even showed the patriotism of the suffragists of England at the opening of the war, they would help their cause much more than by this disorderly exhibition in front of the executive mansion of the nation. Have these women offered their services in any useful capacity in solving some of the numerous domestic problems during the war? Not so far as we have heard. They might prepare to aid the men going to the front, to help the Red Cross or the various other patriotic organizations, but on the contrary they are pursuing a course that is obnoxious to the spirit of patriotism, and that for this reason justifies their arrest when they persist in doing what the citizens in a spirit of patriotism will not allow them to do. Their course is unpatriotic and disgusting not only to the members of congress but also to the citizens throughout the country. Moreover it is injurious to the suffrage cause and opposed to the best judgment of the suffrage leaders of the country. The women engaged in it are seeking a cheap notoriety that with the short-sightedness is desirable; but at this time it is interfering with the officials charged with the conduct of a great war for world liberty. The suffragists are pulling against the government and, therefore, against our success in prosecuting the war.

**PLAN TO MOVE ON BERLIN**  
There seems to be considerable merit in the proposition made at a banquet by the New England cavalry organizations that American troops might win the war by co-operating with the Russians on the eastern front and projecting a movement to reach Berlin. By this method the troops would cross the Pacific and thus avoid the submarine perils. The American railroad engineers now in Russia could arrange for the transportation from Vladivostok to Petrograd where the presence of American troops would do much to inspire the populace with the right spirit so that the anarchists and German intriguers would lose their influence.

This suggestion has certainly sufficient merit to warrant careful consideration by the war department. The presence of a larger force on the eastern front and particularly a menace to Berlin, would force the Germans to withdraw part of their forces from the west and other fronts. Moreover it would make doubly sure the application of the 5,000,000 man power of Russia to the task of speedily ending the war and establishing enduring peace. The plan is the most aggressive yet proposed inasmuch as thus far the Allies have only indulged in battering down the German trenches. Although the Pacific route would be the longest yet it might ultimately prove to be the quickest method of striking the finishing blow to Germany in this war.

**DON'T WORRY!**  
You need not worry. If you are registered and not drawn on the first draft, you need not worry. If you are drawn you have two alternatives: Either you are exempted or you are not. If exempted you need not worry. If not, you have two alternatives: Either you are called into training camp or you are not. If not you need not worry. If you are, you have two alternatives: Either you are sent to France or you are not. If not, you need not worry. If you are, there are two alternatives: Either you fight or you don't fight. If you don't you need not worry. If you do, you have two alternatives: Either you get hurt or you don't. If you don't you need not worry. If you do, there are two alternatives: Either you recover or you don't. If you do, you need not worry. If you don't you will never need to worry again.

**TO BANISH IMMORAL INFLUENCES**  
Secretary Daniels will be sustained by the best influences of the nation in his endeavor to protect the naval forces in training from immoral influences.

On the German side in this war the government has encouraged outrages upon helpless women and children by the soldiers; but at no time has any evidence appeared to show that the soldiers of either England or France departed from the injunction not to do anything as soldiers that they would not do as gentlemen. How they act who get back to big cities is a different question. They are not then under military discipline and they may lapse into the prevalent vices, although many of them, we surmise, would be so grateful for having escaped with their lives, that they would be slow to violate the divine injunction even when free from official restraint.

**AS TO BRUTE FORCE**  
In order to bolster up the waning morale of the folk back home, a German military critic tells Germany the American soldiers have nothing like the finesse in execution and the quickness of decision that marks German

**SEEN AND HEARD**  
The latest joy killer—the six-cent fare.  
A snake that swallowed a big horn-pout in Stony Brook is not expected to recover.  
Why not make the emblem of the democratic party a 20-mile team?—Courier-Cliton.  
And of the republican party a 20-jackass team.  
Get One-Eyed Kish.  
F. A. Williams and E. F. Haven, sailing at Hayden Lake, Idaho, brought in the prize freak fish of the season recently. Says the Spokane Chronicle: It was a black bass with only one eye and with no indication that it ever had possessed another. There wasn't even so much as a socket on the blind side.

**"Allens Predominated"**  
This one short sentence tells the whole story of the Boston anti-consumption, red-flag socialist parade. It told the whole story of the Auditorium "peace" meeting here. These demonstrations are not American. They are merely bubbles in the melting pot. That's why we can take them more calmly

**THE RECREANT SENATORS**  
The attacks upon Mr. Hoover in the United States senate show that certain members of that body have lost all regard for truth and common decency. Senator Reed especially seems to be distinguishing himself for recklessness of statement. It would seem that a coterie of senators are representing German rather than American interests in the senate. Conspicuous among the number are Senators Reed and Stone of Missouri, Gore of Oklahoma, with Borah, Gronna, La Follette and a few others. The charge that certain senators are practicing law on the floor of the senate is probably not without foundation.

**SHIPPING LOSSES DWINDLE**  
The shipping losses as a result of submarine activity continue to grow less. It appears that the under water craft are either becoming more cautious or else their number and efficiency are being impaired. The failure of the submarine as an instrumentality to defeat the Allies and end the war in Germany's favor has long ago been discounted. Even Germany can no longer believe in such a possibility although the war lords still profess to believe that if given time enough the submarines can do the work.

**STILL DIVINE GUIDANCE!**  
Apparently the Kaiser still recognizes the Almighty as his co-partner in conducting the war. The new chancellor is also to affect divine guidance. Under such a partnership it is strange to see so little regard for the divine commands and to note that the methods of warfare must have been invented in the infernal regions.

After the republican press had thrown a fit over the alleged audacity of George Creel of the official information bureau at Washington, in having elaborated the brief dispatch of Admiral Cleave, it now turns out that Mr. Creel's interpretation was fully justified. Subsequent events have proved it to be as correct as most statements regarding an encounter with the enemy submarines.

The hideous monster of anarchy again lifts its head in Petrograd. Happily the government forces stand loyally for the enforcement of law and order.

**Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.**  
West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SUGG, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

**Files and Disease**

**Invented Creased Trousers**  
On the authority of the "Looker-On" in the Boston Record, Herbert Keiley, the distinguished actor, who died the other day, influenced the lives of thousands of men who never saw him. Mr. Keiley was the man who introduced creased trousers' legs into the modes of New York's masculinity. This happened over 20 years ago when Mr. Keiley, then called the best dressed man in New York, appeared at the old Lyceum in a society drama sporting creased trousers. Up to that time New York men, and in fact all American men who took New York for a model, wore their trousers loose and baggy in the English style.

**The Weaker Sex**  
In the domestic court in New York Philip Kessel, who stands fully four feet one inch with his shoes on, was explaining the truth, he swore, about the alterations, which so obviously annoyed his wife, Mrs. Kessel, a woman of huge proportions, listened intently, the while nodding her head from side to side to indicate that his version was as usual, wrong. "But," asked the magistrate, "will

**WE HAVE MADE SWEEPING REDUCTIONS**

you promise never to strike your wife unless she strikes you first?" Mr. Kessel surveyed his wife from head to foot. "I promise," he said, "and I hope she never hits me again. She ought to be ashamed of herself."

**The Skitupa Club**  
The Skitupa club, composed of a dozen prominent young men of greater Boston, which is occupying Bunker Hill cottage on the shore of Silver Lake in Wilmington, is becoming favorably known far and wide for its hospitality, and continues to be the Mecca for connoisseurs of the culinary art. Periodically the members of the club entertain those who are ever looking for new and palatable dishes, and the visitors are never disappointed for Steward Horace Marshall, who is in charge of the kitchen and dining room at Bunker Hill, has little difficulty in satisfying the most exacting person when it comes to cooking. For one sense of the word, the force, in the opinion of the club, for the members have varied tastes for food, but it matters not what they want, or in what manner they want it cooked, he is the Johnny-on-the-spot and has yet to find a member or visitor whose taste he cannot satisfy. Horace takes a delight in his work and as long as the members of the club and their friends are satisfied he has nothing to worry him for he enjoys his steady

**For the South Is Going Dry**  
Lay the jest about the julep in the campfire balls at last. For the miracle has happened and the older days are over. That which makes Milwaukee thirsty doesn't foam in Tennessee. And the lid in old Missouri is as tight-packed as can be. O, the comic-paper colonel and his comrades will may sigh. For the mint is waving gayly, but the south is going dry.

By the stillside on the hillside in Kentucky all is still. For the only damp refreshment must be dipped up from the rill. North Carolina's stately ruler gives his soda glass a shove. And discusses local opinion with the wisp of hair on the fountain with the wink of the eye. For the cocktail glass is dusty, and the south is going dry.

It is water, water, everywhere, and not a drop to drink. We no longer hear the music of the mellow crystal tinkle. When the Colonel and the Major and the Gen'l and the Jedge meet to have a little nip to give their appetites an edge. For the egg nog now is nameless and the eye in the glass holds carnations. And the punchbowl holds carnations, and the South is going dry.

**PASSED LIQUOR TO SOLDIER**  
Supt. Welch of the local police department is in receipt of a communication from the department of justice at Boston informing him of the arrest in Boston on Tuesday night of John Mahoney, giving his residence as Beach street, Mountain Rock, on a charge of passing liquor to a soldier in the uniform of the United States. The local police records show that a John Mahoney answering the description was arrested in this city on December 17, 1909 and fined \$100 for the illegal keeping of liquor.

Theodore P. Shonts, president of the Interborough Railway company of New York recently asked for suggestions for improving the transit facilities of that city, and promptly received 7000 letters offering advice.

There's Never Been In This Town a

**HERE'S THE YOUNG WOMAN WHO DONNED KHAKI AND ALMOST GOT TO TRENGHES**  
Transformed from a khaki-clad, short haired, slender Sammy (or at least a near enough approach to one to deceive the casual eye) into a smart looking ultra feminine young matron, Mrs. Hazel Elauer Carter, "the girl who nearly got into the trenches," has returned to her home at Douglas, Ariz. Mrs. Carter, who smuggled herself aboard a transport with her husband, the troop train at Douglas without my husband's knowledge and got to the port from which we sailed without being detected. If I hadn't raised my voice when an officer was around they might not have found me out at all." Mrs. Carter is small, vivacious and 22 years old. She was married at Douglas in December, 1916. Her exploit cost her husband his corporate chevrons.

**SANFORDS GINGER**

Gosh! but it's good for about everything that can ail you in the way of cramps, pains, colds, chills, indigestion, nervousness, and fatigue. Take it early and often. It's always healthful and helpful.

A delicious combination of ginger and aromatic for the relief of cramps, pains, colds, chills, weakness, nervousness and insomnia. Look for the Owl Trade Mark on the wrapper. Let you get a cheap, worthless or dangerous substitute. Forty-five years the standard of purity, flavor and strength. Sold by all druggists and grocers.

**MRS. HAZEL CARTER**

LEWIS RAPID FIRE GUN MOUNTED ON AEROPLANE.

UNCLE SAM'S AERIAL FIGHTERS ARMED WITH MACHINE GUNS

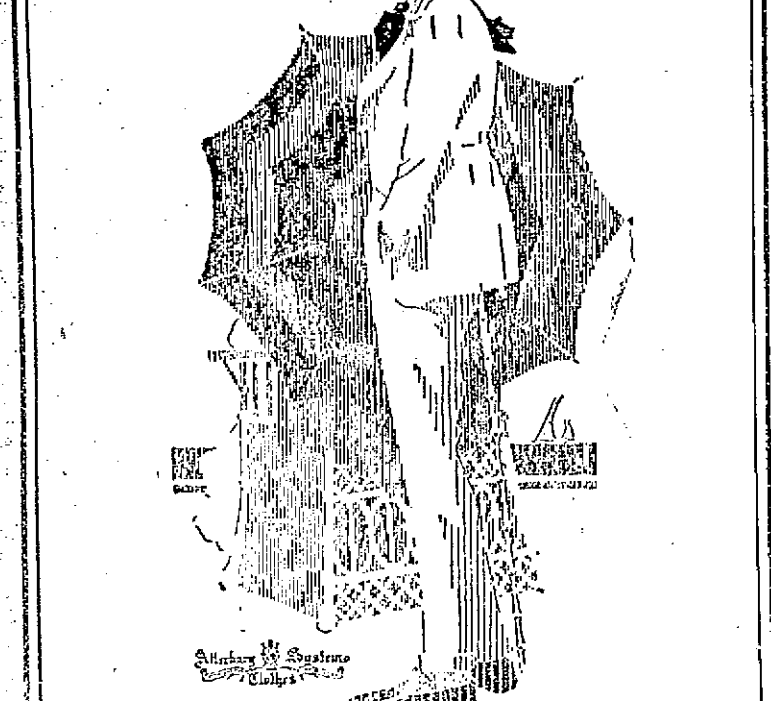

This picture shows two of the society and prominent college men who are in training for the United States aviation service at the aerial coast patrol organized by Yale University at Huntington, N. Y. This unit is awaiting orders to go to France. They are, left to right, Dave Ingalls, captain of the freshman hockey team, Yale, 1916, and R. C. Coombes, Yale's first varsity basketball player, and the 1916 crew returning from target practice in their Curtiss hydroaeroplane, armed with a Lewis rapid fire anti-aircraft gun.

## CORP. LOONEY OF 6TH WRITES THE SUN

Corp. "Bill" Looney, of the Sixth Regiment band, visited Ayer Wednesday evening when the organization went over to cheer up the men who were working there. Now that the Sixth has been ordered to Ayer, the corporal will stay there for good. Here's a letter which he sent to a member of The Sun staff recently:

Dear Friend: We played at the new camp in Ayer Wednesday night, and it certainly was a busy place. It's only half finished at present, and it's hard to form much of an opinion of it, but it will never take the place of Camp Darling. We are to start for the new camp Saturday morning and expect to make it in three days in easy stages of 10 miles a day.

I write this information in case any Lowell people intend to visit their friends at Camp Darling in Framingham or Camp Devens in Ayer, according to orders at present the entire Sixth regiment with the exception of Maj. Dolan's battalion will be on the road somewhere between the two camps Saturday, Sunday and Monday. We expect to reach the new camp late Monday or early Tuesday.

### KNIGHTS OF COLUMBUS

The Lowell Knights of Columbus baseball team, captained by "Bob" Hart, is scheduled to play a team from the Pawtucket High School of Charlestown at the field day which the Lawrence knights are to conduct tomorrow. Aid of the war campaign fund at City-Grille park. A large delegation of Lowellians is expected to accompany the team.

The regular meeting of the council was held last night and was well attended. Plans for the annual outing to be held at the Tyngsboro grounds next Thursday were discussed. Sports, including a ball game between the married and single men of the council will be features of the day. General arrangements for a day of general enjoyment for both the members and their lady friends have been completed. Cars will leave Merrimack square at 1.15, 1.45, 2.15 and 2.45 Thursday noon.

Secretary George F. Briggan has completed the work of securing out acknowledgments to contributors to the recent war camp fund campaign which the local council conducted.

### ORGANIZED PLAY

Continued

may have an opportunity to see just what the children are doing outside of the pageant work, community days on each of the individual playgrounds are to be arranged wherein the sewing, games, dancing and other activities which the children participate in will be shown off. It is planned to have these days before the pageant day. The idea is that there will not be time to hold both the pageant and general exhibition in one day, so they have been divided up.

### Supervisors' Meeting

A meeting of the supervisors was held in the aldermanic chamber in city hall yesterday afternoon shortly after 5 o'clock. All the supervisors and teachers were present, besides the following: Harvey B. Greene, chairman of the playgrounds committee; Supt. of Parks John W. Korman, Miss Clara E. Holland of the Lowell Guild, Miss Margaret O'Dwyer of the same institution, Mrs. Julian B. Keyes, who is to have charge of the grand pageant, and Miss Burke of the Red Cross.

Miss Burke was the first speaker, and she outlined the work which the Red Cross chapter in Lowell thought that the children of the playgrounds were capable of doing in the matter of sewing for the Red Cross work. Only simple sewing will be required on any of the work. For instance, handkerchiefs will be supplied the supervisors by the society and all that will be necessary on these will be to cut them out and hem them. The children can also make slings and ambulance pillows. The material for the latter is contributed by the public, and the society asks that housekeepers who have odds and ends of cloth which are of no use to them to send them in so that the children may make ambulance pillows from them. It was decided to have the sewing classes start from the Red Cross headquarters in the Whistler house, and as soon as any is completed it is to be sent in and more will be furnished. A number of samples of each kind of work which the children do will be kept for exhibition purposes later on.

### Lowell Guild Work

Miss Holland, representing the Lowell Guild, was the next speaker, and she told of the first aid kits which she thought necessary for the safety of the children on the various playgrounds. The entire outfit for each playground, consisting of five bandages, adhesive plaster, a small basin and creoline, may be bought for \$1.10 an outfit. It was decided to have Miss Holland purchase an outfit for each playground.

Miss Holland also spoke of the matter of the children attending the bath at the Elliot school. She said that the attendance so far has been disappointing, and that various teachers told of the difficulties of getting the children over to the baths and of the objections of some of the parents. It was decided to rearrange the schedule of bathing days for each playground and this, with the persuasion of the teachers, is expected to improve matters. Mr. Ginty asked if the South common children might use the bath at times when other playgrounds were not using them, and permission was granted. Miss O'Dwyer, the nurse from the Lowell Guild stationed at the Elliot school, also told of the difficulties in getting the children to come, but said that she thought once they had been given the bath it would be an easy matter to have them return of their own desire. Mr. Ginty asked if the nurses would care for cuts which the children received, and Miss O'Dwyer stated that they were ready to do that work after 3.30 in the afternoon and earlier if the case were urgent.

Mr. Greene said that the playgrounds committee was to buy 500 dolly clothes to be worked out by the children, and also an amount of raffia for the boys. He emphasized the need of having the young children participate in the sewing as well as the older ones, and suggested that considerable unskilled work be done as well as the more advanced sewing of the older girls.

### The Closing Pageant

Mrs. Keyes was the final speaker and she told of the preliminary plans for the pageant which is to be held at the close of the season. The pageant is to be divided into six parts and the various grounds were assigned their sections as follows: Part 1, South common and Walker street; part 2, North common; part 3, Algon street; part 4, Chambers street and the Franklin school; part 5, Lincoln school; part 6, Paige and Fayette streets. The matter of costumes was discussed, and it was agreed to divide the work between the girls, their mothers and the teachers themselves. The songs which are to be sung will be distributed later. Mrs. Keyes suggested that the teachers take the parts of the principal characters, as the children would not be old enough. She asked for the greatest co-operation between the supervisors and herself, and said that she would be ready at any time to discuss the pageant with them.

It was decided that the teachers whose playgrounds would take the first two parts in the pageant should meet Mrs. Keyes at the Elliot school Monday afternoon at 4 o'clock to discuss their individual parts. The other teachers will meet later in the week.

The meeting adjourned at 6.15 until next Thursday.

## O. M. I. CADETS GO TO CAMP JULY 30

Realizing the importance of the situation now confronting the country, and ever alive to the responsibility incumbent upon all in the time of war, the annual encampment of the O. M. I. Cadets this year will have more significance than ever before.

The Cadets were always believers in preparedness, and the advantages of military training, and consequently are ever prepared to give a good account of themselves. Since the formation of this organization, military tactics have held a very important place in the lives of the young soldiers. Annually they have spent a week at camp, where all the military maneuvers have been executed daily. The organization has always had a trained military man for instructor. Mr. McArthur was the first man to hold the office, while he was succeeded by Francis Haggerty, who went to the front with Company No. 10, Ninth regiment, and who is now holding an important position in the war department at Washington. An idea of the success attending the drills and encampments of the

from New York city to the arsenal; No. 2, working on the riding of a 16-inch gun; No. 3, drilling five-inch and eight-inch long pointed caps for projectiles. Guns up to 16-inch caliber are made at this government arsenal, which is on the Hudson river, near Troy, N. Y., and by this access by rail and water, in 1897, and from that time to this, night and day, the place has been guarded continuously by army sentries.

cadets is demonstrated in the fact that today many former members of the organization are identified with the various units in the army of democracy. Graduates from the cadets have announced that the training they received while connected with Ft. Sullivan's organization has stood them in good stead in their present duties.

This year's encampment will be held from July 30 to August 4, inclusive, and the plans as at present arranged out by Maj. Conroy, and his efficient corps of officers, include drill in all the branches of warfare. There will be night guard duty, training in trench warfare, sham battles, and the one hundred and one other things connected with modern warfare.

Two well known physicians, Dr. Collins and Dr. Delaney, will have charge of the hospital unit, and they will be assisted by several trained nurses. The hospital tents will be equipped with all the facilities seen on the battlefield.

Like the regulars, the Cadets will not only engage in military drill, other things have been provided, for recreation, during the time that the boys have off duty.

Athletic events are on the program, and these will be in charge of physical instructor Matt McCann. He will be assisted by Joseph Boyd, Sr.

A new feature this year will be the presence for the first time of the junior naval reserve, a branch recently organized. This division is made up of boys too young to join the military department and the youngsters will have their first experience in camp life this year. The drill for the "jacks" will be less rigid than that of the older boys.

Rev. Dennis A. Sullivan, O.M.I., chaplain, and organizer of the Cadets, will be on hand to supervise the encampment. He desires that all who intend to go inform him or the officers as soon as possible, for arrangements with the mess officers and others cannot be made until the final number of those to attend is received.

# Germany Ready For Peace As Victors

## REPORTS ON INQUESTS SUBMITTED TODAY

Two inquest findings were submitted at the office of the local police court this morning by Special Justice Frederic A. Fisher. The first was on the death of Max Medinsky, who was struck by an automobile, owned and operated by Henry W. Scott, in Westford street on the afternoon of Saturday, May 19, and died a week later. In this case no criminal negligence was found. The second report was on the death of James Kennedy, who died as a result of injuries sustained in an automobile accident in Draught on Sunday, May 20, in which the machine in question was operated by Lynwood D.

Foster. No criminal negligence was found in this case. Scott and Foster appeared before Judge Enright in police court this morning on complaints charging them with manslaughter, but owing to the report of the inquests that there was no criminal negligence on the part of either, both were discharged. The complaint of operating an automobile at a rate of speed endangering the lives of people was placed on file.

**CHAUFFEURS EXAMINED**  
Thirty-one candidates for a chauffeur's license were examined at city hall this morning by Examiners Dudley, Dolan and Halsey of the state highway commission.

Housewives of this city now look forward to Eddy Bye's tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

## German Chancellor Michaelis' Speech---Reichstag Adopts Peace Resolution

### America's Intervention Not Regarded With Serious Concern—Says Russia Forced War on Germany and British Blockade Made U-Boats Necessary

COPENHAGEN, July 20.—The reichstag yesterday adopted the majority peace resolution by a vote of 215 to 113 with 17 not voting.

**Chancellor's Speech**  
COPENHAGEN, July 20.—Chancellor Michaelis, in his address before the reichstag yesterday, said Germany would not continue the war a day longer if it could obtain an honorable peace. America's intervention was not regarded with serious concern. The German fleet, particularly the submarines, would master the situation, he said.

**Russian Forced War on Germany**  
"Although," said Chancellor Michaelis,

NECKWEAR, 65c value.....50c

**Great Weight on Shoulders**  
"Appointed chancellor by the emperor—I have the honor for the first time to communicate with your high house. A great weight has been laid on my shoulders in a most grave time. Trusting God and German might I have ventured to undertake it and shall now serve the cause to the utmost of my power. I beg from you your trust and co-operation in the spirit which has been splendidly maintained in this body during the war."

**Defends Submarine Warfare**  
"The concentration of the Russian army compelled Germany to seize the sword. There was no choice left to us and what is true of the war itself is true also of our weapons, particularly the submarine."

**Ready to Quit as Victors**  
"The burning question in our hearts, however, is how much longer the war is to last. With this I come to a matter which stands in the center of all our interest and all our proceedings today. Germany did not desire the war in order to make violent conquests and, therefore, will not continue the war a day longer merely for the sake of such conquests. It could obtain an honorable peace."

**The Germans, he said, wish to conclude peace as combatants who have successfully accomplished their purpose and proved themselves invincible first. A condition of peace was the inviolability of Germany's territory.**

**Dr. Michaelis' words require a careful reading and are capable of various interpretations other than a surface one. His German indicates a willingness to make peace only as victors and in his use of words "understanding" and "give and take" (the German words *verständnis* and *geben und nehmen*) he revives the *Reichmann***

**Adopted to Shorten War**  
"Then Germany had to choose this last measure as a counter measure of self defense. Now also it must carry it through for the purpose of shortening the war. The submarine war is accomplishing all and more than it is expected to."

**Europe, in fact, that the submarine accomplishes in the destruction of enemy tonnage what it should do in Germany's economic life and the conduct of the war month to month in a growing degree so that it will not be possible to oppose the necessity for peace much longer.**

**America's Intervention**  
"We look without serious concern upon the optimistic sentiment in the entente countries caused by America's intervention. It is easy to reckon how much tonnage is necessary to transport an army from America to Europe. How much tonnage is required to feed such an army. After our previous success we shall be able to master this situation also through our fleet, particularly the submarines."

After our previous success we shall be able to master this situation also through our fleet, particularly the submarines."

**Ready to Quit as Victors**  
"The burning question in our hearts, however, is how much longer the war is to last. With this I come to a matter which stands in the center of all our interest and all our proceedings today. Germany did not desire the war in order to make violent conquests and, therefore, will not continue the war a day longer merely for the sake of such conquests. It could obtain an honorable peace."

**The Germans, he said, wish to conclude peace as combatants who have successfully accomplished their purpose and proved themselves invincible first. A condition of peace was the inviolability of Germany's territory.**

**Dr. Michaelis' words require a careful reading and are capable of various interpretations other than a surface one. His German indicates a willingness to make peace only as victors and in his use of words "understanding" and "give and take" (the German words *verständnis* and *geben und nehmen*) he revives the *Reichmann***

**Adopted to Shorten War**  
"Then Germany had to choose this last measure as a counter measure of self defense. Now also it must carry it through for the purpose of shortening the war. The submarine war is accomplishing all and more than it is expected to."

**Europe, in fact, that the submarine accomplishes in the destruction of enemy tonnage what it should do in Germany's economic life and the conduct of the war month to month in a growing degree so that it will not be possible to oppose the necessity for peace much longer.**

**America's Intervention**  
"We look without serious concern upon the optimistic sentiment in the entente countries caused by America's intervention. It is easy to reckon how much tonnage is necessary to transport an army from America to Europe. How much tonnage is required to feed such an army. After our previous success we shall be able to master this situation also through our fleet, particularly the submarines."

# WAR DRAFT NUMBERS

## INFORMATION FOR MEN LIABLE TO DRAFT

The draft was the one topic of discussion—and action, too—in Lowell today. When the news came that the lists containing the much sought "red ink" numbers had arrived in Lowell, the excitement began for fair. The Sun office was the scene for hundreds of young men who were anxious to learn just what combination of figures should decide their fate.

Go out in what order you may be called for service, you must know your "red ink" serial number. The original number on your registration card is of no consequence. You have been given a new number which is your draft number.

Lists of names, showing these numbers, will be posted by each local exemption board. You will get your "red ink" serial number, or draft number, from this list. The local exemption board expected to receive the lists yesterday, but they had not arrived and will be posted as soon as possible.

**Exemption Districts**

The headquarters of the four divisions of the local exemption board are appended. Find out what exemption district you reside in. Note where your board's headquarters are. Go to those headquarters. Ask to see the list showing your serial number. When you find out that number remember it. Here is the list of headquarters:

District 1, for wards 1, 5 and 9: Headquarters in the office of Dr. E. J. McKeown, 226 Merrimack street, room 3. Board comprises Dr. E. J. McKeown, George H. Taylor and Dr. E. J. McKeown.

District 2, for wards 2 and 3: Headquarters in the room next to the council chamber at city hall. Board comprises George H. Taylor, John J. Hanlon and Dr. A. R. Gardner.

District 3, for wards 4, 7 and 8: Headquarters, court house in Gorham street. Board comprises Judge Thomas J. Brennan, Joseph P. Donohue and Dr. Pierre Brunelle.

District 4, for wards 6: Headquarters, Greenhouse school, West Centralville. Board comprises Dr. E. J. McKeown, John J. Gallagher and John H. Deane.

**Save List of Numbers**

Take the list of numbers showing the order of draft liability from The Sun or any other paper and save it. If you are of draft age. Somewhere in this list you will find your own red-ink serial number. When you have learned what your serial number is, you will be able to find it in the list and get an idea how many men must be drafted before you are called.

**May Not Be Called**

Even when a man may know his red ink number and find it in the list of drawings he may still be uncertain as to his chances of being called until announcement is made of the quota to be furnished by his district.

**Every district will be required to furnish a quota assigned to it on a ratio of registration strength. Furthermore, the number of registrants varies from district to district. So number 1233, for example, in one district, may have a much better chance of being called immediately for service than the same number in another district. Director Gettemy stated yesterday that the district quotas for Massachusetts are in preparation and their announcement will probably be made Saturday.**

**Local Board's Procedure**

From then on the procedure will be as follows: Each local board, upon learning the size of its quota, will probably call that number of men in the numerical order determined by the drawing in Washington. Each man will be notified by mail if he is called for service. But it is his duty also to find out whether he is called, and he should show good reason later why he did not, he will be held to be called for service and so posted.

As the men called for the first quota are examined, there will be, of course, many exemptions. As exemptions are made, each board will call another group of men in the predetermined numerical order to supply the deficiency in the quota. So eligible men will have to keep a close eye on their board's headquarters unless the drawing of their particular serial numbers indicates that they are far down in the order of service.

If a man is rejected by one physician on physical examination, he will be examined by another. Even when he is disqualified by two physicians, the board must wait before he can be discharged. Eligible men who are now in Massachusetts, but are registered in other districts, if called for service, must apply to the local boards to be physically examined in the district in which they are now living.

**ATTEMPT TO KILL WAR MINISTER OF RUSSIA**

PETROGRAD, July 20.—An attempt to assassinate War Minister Kerensky was made today at the town of Polotsk, 150 miles from the capital. The minister escaped unhurt.

**DRAMATIC SCENE AT DRAFT**

Special to The Sun

WASHINGTON, July 20.—Tense silence attended the dramatic scene when Secretary of War Baker drew the first number on the war draft today. The low ceiling of the room was filled with spectators, the room was filled with spectators, the room was filled with spectators.

**PUBLIC MEETING**

Truck Farmers, Market Gardeners, Produce Dealers and All Persons Interested in the Establishment of

**A Public Vegetable Market**

Are invited to hear

Sup. Merrick of the Quincy, Mass. Public Vegetable Market

at

City Hall, Aldermanic Chamber

THIS (FRIDAY) EVENING AT 7.30

Mayor O'Donnell Will Preside.

**SENATE FOR THREE MAN FOOD BOARD**

WASHINGTON, July 20.—The senate yesterday practically ousted Herbert Hoover as food administrator, when it voted down an amendment favoring a one-man board in favor of a paid board of three.

While it is believed likely that a place on this board will be offered Mr. Hoover by the president, it is believed unlikely that he will accept, unless convinced by President Wilson that it is his plain patriotic duty. Mr. Hoover accepted his present position only upon the condition that he and his chief assistant should be unpaid.

**MAXIMALISTS SURRENDER**

PETROGRAD, July 20.—The villa of Mlle. Keshinskaya, long the headquarters of the Maximalists, who defied the authorities to dislodge them, capitulated after a slight brush yesterday morning. The occupants took refuge in the nearest Peter and Paul fortress. When the fortress was later surrounded by troops the Maximalists ran up a white flag and surrendered.

The local evening newspaper to the point that touches the home when the whole family is there to read it. The sun fills this field in Lowell.

## Drawing Began at 9.49 o'clock 1000 Numbers Drawn Before Noon

### 1,000,000 Men Represented in First 1000 Numbers—258 the First Number Pulled Out By Sec. of War Baker—List of Numbers Drawn

WASHINGTON, July 20.—The drawing for the war army scheduled to begin at 9:30 o'clock this morning was delayed a few minutes while moving picture men and official photographers snapped the stage set for the momentous scene and Secretary Baker and the provost marshal general made statements explaining the process.

Drawing for the war army began at the senate office building this morning at 9:49 o'clock in the presence of Secretary Baker, the senate and house military committees, a group of high officials of the government and representatives of the press. It is estimated that from ten to twelve hours will be required to draw all of the 10,000 numbers required to fix the order of liability of each of the ten million men registered.

The drawing was delayed a few minutes after eight numbers had been drawn for removal of photographic apparatus and then proceeded rapidly.

It was officially estimated that approximately 1,000,000 men were represented in the first one thousand numbers, which had been drawn at 11:32 o'clock, a little over one hour and a half after the drawing began.

When the first thousand had been drawn there was a delay of a few minutes while a new blackboard was brought in. Then the withdrawal of capsules proceeded at the rate of twelve a minute.

Of the first fifteen hundred numbers drawn 405 were below 3000. If the normal district has 3000 registrants, then names designated by the 405 are about 1,500,000.

**258 First Number**

258 was the first number drawn. There are in the United States 4567 registration districts for the purposes of the selective draft law. Each number drawn today in Washington will apply to each one of these districts. So as 258 was the first drawn, each man whose serial number is 258 is the first man in his district subject to the call.

The numbers given below are those drawn up to the time of going to press. The list gives only the numbers drawn that affect Massachusetts, Maine, New Hampshire, Rhode Island and Vermont.

258	6613	4532	458	3403	5434

**RUSSIANS RETREATING IN DISORDER, SAYS BERLIN**

BERLIN, July 20, via London.—German troops have pushed forward through three strong Russian zones of defense between the Sereth and Zlota Lipa rivers in eastern Galicia, says the official statement issued today by the army headquarters staff. The Russians suffered heavily, the statement adds, and are retreating in disorder. The Germans took a few thousand prisoners.

**Why Russians Fled**

PETROGRAD, July 20, via London.—The Russian failure to hold the German advance in eastern Galicia, says an official statement issued by the war department today was due to extremist detachments holding meetings and discussing the advisability of obeying orders which some regiments had refused to obey.

**Artillery Activity**

BERLIN, July 20, via London.—Artillery activity in Flanders increased yesterday to extreme violence, says the German war office statement issued today.

Part of the French positions on the winter line were captured by the Germans. Later some of these trenches were abandoned during a French attack.

**British Raids**

LONDON, July 20.—We made successful raids and captured several prisoners last night opposite Gavalle and north of Ypres, says today's official announcement.

**Big German Offensive**

LONDON, July 20.—German armies in the west and east delivered great attacks yesterday to recover ground recently taken from them by the Russians.

**Heavy German Attack**

PARIS, July 20.—The Germans made a general attack last night on the whole section of the Alsace front between Craonne and Vaucouleurs, using large bodies of troops.

The war office announces that the French withstood their furious assaults and maintained their positions everywhere. The attack was repulsed and positions were drawn with German dead.

**FOOD CONSERVATION**

"We have been and are still working in Lowell to find out who among the women are willing to help the allies in winning the war, and unless the women are willing to co-operate in the food conservation campaign it is very probable that next fall, if the war is not over, the bread line will be established all over the country," such is the statement given out this morning by Mrs. Butler Ames, chairman of the Lowell women's unit of the National Defense committee.

Continuing Mrs. Ames said: "We want all the women in the country who are over 16 years of age to co-operate in this important movement so that everybody in the country will be working for one good cause, that of winning the war. All can help if they so desire. This is the first time in the history of the United States that the government has called on the women to do anything and a quick and sincere reply is what is expected from all."

"The aim is to conserve food so that present conditions in Europe will not be duplicated in this country. We are not asking people to use less food, but to select the foods that are most abundant and cheap, and also to use perishables plentifully in season. We urge women not to use canned vegetables when the same article is available in the market at a reasonable price. We expect that within a week a public vegetable market will be established and on market days, which will be Wednesdays and Saturdays, a canning station will be open for the benefit of the public at the Merrimack street war work quarters. This station women will be given an opportunity and will be taught to can their own goods and this will prove of great benefit. The canning station will accommodate about nine people at a time."

"The National Defense committee at Washington will send instructions from time to time as to what food to use, urging the people not to consume what can be sent to Europe particularly white flour. An endeavor will be made to conserve the food by consuming public in purchasing products that are plentiful and relatively cheap. If the buying public will then demand this commodity and assure the retailers that the product will be possible to consume what is at times wasted and we hope through judicious advertising in the newspapers and bulletins to publish information concerning products which are plentiful and which are selling at wholesale and reasonable prices."

In closing, Mrs. Ames appealed to all residents of this city to attend the meeting to be held at city hall this evening for the purpose of discussing the advisability of establishing a public vegetable market and also to bear in mind that the food conservation campaign is not one of rationing, but simply organized in order to have women economize on food.

This is the first time in the history of the United States that the government has called on the women to do anything and a quick and sincere reply is what is expected from all."

"The aim is to conserve food so that present conditions in Europe will not be duplicated in this country. We are not asking people to use less food, but to select the foods that are most abundant and cheap, and also to use perishables plentifully in season. We urge women not to use canned vegetables when the same article is available in the market at a reasonable price. We expect that within a week a public vegetable market will be established and on market days, which will be Wednesdays and Saturdays, a canning station will be open for the benefit of the public at the Merrimack street war work quarters. This station women will be given an opportunity and will be taught to can their own goods and this will prove of great benefit. The canning station will accommodate about nine people at a time."

"The National Defense committee at Washington will send instructions from time to time as to what food to use, urging the people not to consume what can be sent to Europe particularly white flour. An endeavor will be made to conserve the food by consuming public in purchasing products that are plentiful and relatively cheap. If the buying public will then demand this commodity and assure the retailers that the product will be possible to consume what is at times wasted and we hope through judicious advertising in the newspapers and bulletins to publish information concerning products which are plentiful and which are selling at wholesale and reasonable prices."

In closing, Mrs. Ames appealed to all residents of this city to attend the meeting to be held at city hall this evening for the purpose of discussing the advisability of establishing a public vegetable market and also to bear in mind that the food conservation campaign is not one of rationing, but simply organized in order to have women economize on food.

**2400 SOLDIERS PASS THROUGH LOWELL**

Two trainloads of soldiers of the U. S. regular army passed through Lowell about 9.30 this morning. As far as can be learned they came from Ft. McKelvey, near Portland, Me. Their destination was Ft. Adams Grubbell, which is located just across the harbor from the naval training station in Newport, R. I. The men stopped for a short while at the Middlesex street station, but were not allowed to get off the cars. There were 24 cars in all and it is estimated that there were 2400 men in the outfit.

The freight yard of the New York, New Haven and Hartford road in Middlesex street was reached shortly before 9.45 and a more prolonged stop was made here. The men got off the cars and walked about the yard, but it was next to impossible to secure any information from them. The change from Boston & Maine line to that of the New York, New Haven & Hartford was made, and at 10.30 the order was given to board the trains again.

**HEAT PROSTRATION**

Alfred Blanchard, residing at 232 Plain street, was overcome by the heat on the South common about 5.10 o'clock this afternoon. The ambulance was summoned and he was taken to St. John's hospital.

## FR. CONDON TO SING HIS FIRST MASS SUNDAY

Rev. Garrett James Condon, son of Mr. and Mrs. James Condon of 219 Riverside street, this city, who was ordained to the priesthood at the Amer-

ica. He then entered Boston college and upon graduating from there five years ago, he went to Rome and entered the American college. Here he studied for five years and with others, was elevated to the priesthood at a most impressive service on June 2. There was then some uncertainty over his departure for this country, on account of the war, and his letters to his parents here failed to give much information relative to his coming owing to the strict war censorship. Finally arrangements were made for his coming, and he secured passage on a liner for America. He arrived safely at an American port this week, and came directly to Lowell, where his parents and friends rejoiced at his safe return after an absence of five years.

Fr. Condon has been assigned to the Boston diocese, and will go to Boston after a few days' rest in Lowell.

## SECOND CARNIVAL EVENT TONIGHT

The second event of the big Lowell Carnival which began with the grand "Miss Lowell" beauty contest at the Casino last Friday will be given this evening at that same popular pleasure resort in the form of an All Girl show which promises to be one of the biggest and best of its kind ever presented in Lowell. All arrangements have been completed for the staging of this much looked-forward-to event by Mr. Edward F. Quinn, who is promoting this carnival. Lovers of good musical entertainment will thoroughly enjoy this show as a partial list of those who will sing many of the latest song hits will indicate; among others are such favorites as May Doherty, Evelyn Benoit, Lillian McPerson Fox, Florence McManus, Alice Dion, Alice Bonin and Katherine Shannon. Walter E. O'Neill is musical director and pianist.

Each one attending the All Girl show tonight will have a chance to win the Liberty Bond and the lovely little baby which will be given away on Banner Night next Friday evening.

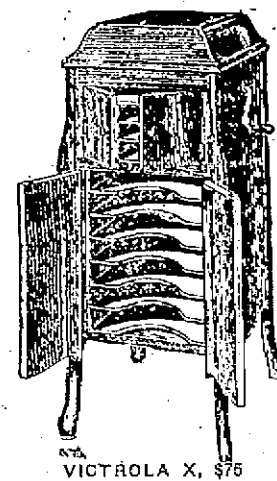

REV. GARRETT J. CONDON

ican college, Rome, on June 2, arrived in Lowell Monday evening, and he will celebrate his first high mass at St. Columba's church, at 10.30 o'clock next Sunday.

Fr. Condon secured his early education at the St. Patrick's Boys' academy, graduating from there with hon-

## ATTENDANCE OFFICER IS 71 YEARS OLD TODAY

Attendance Officer Camille Roussin is today receiving congratulations from his many friends on the occasion of the 71st anniversary of his birth. Mr. Roussin's anniversary comes at a very appropriate time as he is now enjoying his annual two weeks' vacation, having returned a couple of days ago from Fall River, where he was the guest of friends and relatives.

Camille Roussin was born at St. Etienne, Que., July 20, 1846. When a young man he went to Rochester, N. Y., and while a resident of that city he was married to Miss Julia Janson LaPalme, who died suddenly in this city

CAMILLE ROUSSIN

last February. While in Rochester Mr. Roussin conducted a successful business, but after a few years he left for Cleveland, O., and later went to Fall River, where he again entered business. For a short time he made his home at Warren, R. I., and 35 years ago he came to Lowell and has lived here ever since.

Shortly after his arrival in Lowell Mr. Roussin opened a wine store and later dispensed of his business to enter the pharmacist line. In 1893 he was appointed attendance officer, which position he is still holding. His home is at 3 Salem street, but the summer months he spends at his cottage at Brookside, Braintree, on the Lawrence road.

The subject of this story was always deeply interested in fraternal and social organization and at one time was very prominent in politics, being a staunch republican. He was founder and first president of Garde Salade, one of the charter members of La Corporation St. Andre, now Branch St. Andre, A.C.F., and president of La Societe de Colonisation Canadienne-Francaise of this city, which was founded in 1887.

Mr. Roussin is now connected with several fraternal and social organizations and counts a host of friends in this city. He is the father of five children, four daughters and a son, the latter holding a responsible government position in Canada. He is enjoying the best of health and despite his advanced age is still alert and vigorous and is constantly on the job at city hall or on his daily trips around some of the various schools of the city.

## SCHOOLS IN CAVES FOR FRENCH CHILDREN

NEW YORK, July 20.—Schools in caves, with pupils and teachers wearing gas masks are extremes to which war-ridden France has gone to ensure for every child "that heritage in which alone is the promise of an enduring nation," says an official report by John H. Finley, president of the University of the State of New York and state commissioner of education, who recently returned from an educational mission in France, during which he studied the effect of the war on the French school system.

While France has restricted the use of food, fuel and light; has discouraged travel; has mobilized every able-bodied man for defense, she has not for one moment forgotten her future defense, said President Finley. Women by thousands have taken the place of men teachers in Canada. He is presenting the front lines of the battle by women, have again returned to teach.

President Finley especially sought the advice of France in meeting the conditions here. This advice, summed up, is, he said: "Do not let the needs of the hour, however they fall upon the neck of the women of the day, permit neglect of the defenses of tomorrow. Sacrifice everything to bequeath the spirit that has made the institutions which

we would preserve and enlarge in our children.

"France had no time to make plans for else than immediate defense," he declared. "Her universities were at once practically emptied of men, when some should have been held in order that they might give a more efficient service later."

President Finley urged that the United States take time to prepare against such exhaustion of our technical skill and professional equipments as would deprive those who must face man's scientific savagery of man's highest ministry.

Except to make place for physical training in her schools, which is not yet generally prescribed or enforced, President Finley said there is little change in the French curriculum. France, after an unsuccessful experiment 15 years ago, withdrew military training from her public schools and she is now looking in the direction in which New York has gone as pioneer, President Finley declared.

### CASTORIA

For Infants and Children In Use For Over 30 Years Always bears the Signature of *Chas. H. Fletcher*

### SOCIAL AND FRATERNAL

The Ladies' auxiliary of the Street Carmen's union held a "gentlemen's night" at the home of Mrs. Thomas Murphy, 495 Hildreth street Wednesday night. There was a large attendance, eight ladies and their husbands being present. An excellent supper was served and during the evening readings were given by Mrs. Leon Vassori and a pie contest between William Lane and Walter Harrison furnished much enjoyment.

Elgin lodge, 166, N.E.O.P. held its regular business and social meeting in Veritas hall, Branch street, last night. Grand Deputy Grand Warden Elizabeth Gahin and Grand Guide Mrs. Marie Mayhew of Cambridge as the official guests. Routine business was transacted and during the social hour which followed, songs were sung by Fred Timmins and refreshments were served.

The regular meeting of Lowell council, Knights of Columbus was held last night, Grand Knight Thomas presiding. There was a large attendance and considerable routine business was transacted during the course of the meeting. The committee in charge of the ladies' day and basket picnic to be held next Thursday submitted a report of progress. The program of the day will include a fine list of sports in which provision is made for contests among the women folk. A baseball game between teams made up of the married and single men of the council will be one of the features. Extra cars will leave Northbrook square Thursday afternoon at 1.15, 1.45, 2.15 and 2.45. Members and their wives and friends are expected to attend in large numbers.

Lowell lodge 24, Knights of Pythias held a meeting last evening, the special feature of which was the working of the rank of page on candidates from Wameet and Skunk Hill lodges. The degree was worked by

a squad of K. of P. men from the engineers camp at Rockingham, and the exercises were witnessed by guests from all the Lowell lodges and edges of the surrounding towns, of whom there were about 100 present. Following the business session, an enjoyable smoke talk was held.

The regular meeting of Lowell herd, Benevolent Order of Buffalo, was held last night. President George R. Brown was in the chair. Considerable routine business was transacted and two new members were admitted. Reports were heard from the committee in charge of the annual field day and outing of the herd, which is to be held in the near future. Favorable reports from the auditing committee in regard to the financial standing of the herd were also given and a communication was read from headquarters, stating that Supreme President John Howland of Malden and Supreme Secretary Charles H. Mann will be in attendance at the next regular meeting.

## DETECTIVE INDICTED IN CRUGER CASE

NEW YORK, July 20.—An indictment charging neglect of duty in connection with the investigation into the murder of Ruth Cruger by Alfredo Cocchi was returned yesterday against Detective John Lagarenne by the grand jury investigating the alleged inefficiency of the police department in the handling of the case. Lagarenne was immediately placed under arrest.

SINN FEIN ORGAN SUPPRESSED LIMERICK, Ire., July 20.—The Sinn Fein organ, "Fictionist," which has been appearing for some months, was suppressed yesterday. The police seized the plant.

## MGR. JOHN O'BRIEN OF CAMBRIDGE DEAD

BOSTON, July 20.—Mgr. John O'Brien, the venerable pastor of the Church of the Sacred Heart, East Cambridge, died last night at 6:45 o'clock, at the rectory on Sixth street. He had been in poor health for a long time and able to attend to his duties only intermittently.

He was confined to his bed for only two weeks. The funeral will take place at the church tomorrow morning and the burial will be at West Springfield.

Mgr. John O'Brien would have been a great man in any station of life. He was fearless, of untiring energy, and gifted in large measure with constructive ability—the ability to make his work count for something. The work he accomplished in the Sacred Heart parish at East Cambridge is a monument to this latter quality.

Like many Irishmen who came to this country during the last great in-

flux of immigrants to New England from the Emerald Isle in the late 40's, he had the physical capacity for hard work, was simple and God-fearing and had the determination to succeed.

He was born in Garrahan, parish of Inogoola, diocese of Cloyne, County Cork, Ire., April 2, 1838. He came with his parents to this country in 1850 and went to work on a vegetable farm for his uncle, William Foley, in West Springfield. In 1852 he worked in the mill room of the cotton factory in Millisneague, a village in the same town.

On the passage of the first prohibition law by the Massachusetts legislature a body of citizens was formed to enforce it. Mr. O'Brien was one of the men who made secretary. His acceptance of the office caused a commotion in the Irish Catholic colony of 20 or 30 families, for they could not see that his consent to serve was almost equivalent to his leaving the church.

Early in his career he organized a Sunday school in Millisneague and Mr. Meagher, superintendent of the mill, gave young O'Brien the use of the corporation hall. Mr. Meagher later gave young O'Brien an acre or more of land for a church, on which the present church now stands.

Every Catholic child and youth in the village faithfully attended John O'Brien's Sunday school. Many years later Fr. O'Brien pointed with pride to men who had developed into successful business men. In the autumn of 1857 he attended an academy in Springfield, conducted by a Mrs. Stebbins, where he studied French, Latin and Greek, being the first and only Catholic who attended that school.

He went to St. Charles college, Maryland, in 1860, remaining there during the vacations, until he finished his course in 1864. In 1864 he was sent to St. Joseph's seminary in Troy, N. Y., for his philosophical and theological courses. He was ordained at the seminary June 6, 1866, and the then Bishop Williams of Boston at once appointed him assistant to Fr. Hamilton of St. Mary's church, Charlestown.

In January, 1871, Fr. O'Brien was made pastor of Concord and Lexington, having five Sunday schools in his charge in Lexington and two in private houses in Bedford, one in the church in Concord and one in a private house in West Concord.

On March 3, 1873, Fr. O'Brien was sent to take charge of the East Cambridge parish, then St. John's, to build a church, notwithstanding the effort made by Concord citizens, including Judge Hoar, Judge Brook and Town Clerk George Hayward, to have him remain in Concord. Fr. O'Brien began his work with vigor. By means of subscriptions, collections and a mortgage he was able to take the deeds July 23, 1873.

The corner stone of the beautiful Church of the Sacred Heart at Olla and Sixth streets was laid Oct. 1, 1874. The basement was opened for services Nov. 12, 1876, and the church was dedicated Jan. 28, 1888. Since then Fr. O'Brien had erected a parish house, a baptistry, a parochial school and convent.

As a citizen Fr. O'Brien had no superior. He was the first man to call attention to the need of a park system in Cambridge and has, in fact, been called the father of the park system. He was chaplain at the inauguration of Mayor Fox; served on the school committee for eight years; on the park commission for three terms, resigning in the middle of the last one. He was always active in the temperance cause.

In December, 1888, he began in his own parish in East Cambridge, a Catholic weekly, the Sacred Heart Review. His paper, now a Boston publication, carried during the last six years the record of the time. In 1900 Fr. O'Brien was made a domestic prelate by Pope Pius X, with the title of monsignor.

For 15 years Fr. O'Brien had differences with St. John's Literary Institute of East Cambridge, an organization of Catholic men and the largest in the parish, over the right of the membership to sell the property held by the institute. Fr. O'Brien won his point when the organization amended its constitution so that such a sale would have to meet the approval of the archbishop.

Years ago he was treasurer of the Boston Columbus memorial committee which raised funds for a monument on the island of Santo Domingo, where was built the first church in the western hemisphere.

About 14 years ago, Mr. O'Brien disapproved of the activities of the N.M.C.A. in East Cambridge, taking exception to alleged statements at a meeting in Boston, characterizing that

section of Cambridge as a "Whitechapel district." Fr. O'Brien enquired in an open letter many Catholic societies doing good work in the parish and asked that President Elliot of Harvard withdraw his student workers from the district. The request was complied with.

## MAKING PLANS FOR BIG AGRICULTURAL FAIR

At a meeting yesterday afternoon of the central committee in charge of the Agricultural fair to be held at the Kassino Sept. 20, 21 and 22, under the auspices of the Middlesex North Agricultural society, the board of trade and the Lowell park department, a sketch of the plan for the big event was made, and all interested pledged themselves to spare no time or effort in making the affair one of the best of its kind ever conducted in this city.

The fair will last three days and the program in a nutshell will consist of a street parade, contest and commercial display. The street parade will be held Thursday noon, Sept. 20, and will consist of loaded trucks with prizes for trucks entered by the granges by the vegetable gardeners, the fruit and flower

## The Wonders of Yellowstone Park—New Features Making a Park Tour Delightful.

There is no monotony in Yellowstone—each day brings you an entirely new set of wonders. Strange geyser throwing out cones of boiling water and steam, "paint-pots" bubbling on and on forever, canyons and waterfalls almost twice the height of Niagara, petrified forests, and a thousand other wonders.

The hotels, camps and automobile transportation in the Park are each under the control of the Government. No more slow and uncomfortable horse stages. The Government has decreed that automobiles shall be the new means of conveyance, and they are now universally used.

A five-day tour of the Park costs only \$55.00, or, if you use the camps instead of hotels \$12.00. The rail rate to the Park is very reasonable. On the way out do not fail to take the "Condy Road"—the eastern entrance—for there is nothing in the Park more beautiful and inspiring than the glorious mountain scenery along that Government-built automobile road to Condy where a comfortable and home-like Burlington train awaits you.

Let me tell you all about it and help you plan your trip. The plan can get the most out of it. Glad to do it—that's what I'm here for. Call, or write, for a Yellowstone Folder. Alex. Stocks, New England Pass. Agt., C. B. & Q. R. Co., 264 Washington street, Boston.

er men and the children.

The exhibits at the fair will be in three classes, vegetable, commercial and canned goods and preserves. The vegetable exhibit will be classed as follows: 1, farmers; 2, city home gardeners, and 3, children's city home gardeners, and 3, children's gardens. The commercial section will chiefly consist of exhibits of seeds, farm implements, etc.

It is expected that over \$1000 will be given in prizes, the children's department receiving its large share of the awards. The show will have music and instrumental attractions and will be absolutely free to the public. Every grange in the district will be asked to stir up enthusiasm, and it is expected the fair will prove both interesting and instructive. Further details of the coming event will be announced later.

## CONCRETE BARGES POINT THE WAY TO NEW TYPE OF SEA-GOING VESSELS

War as a terrific driving force behind the development of all arms of transportation, under stern necessity, appears to be creating the concrete ship.

Ten San Francisco shipping men have subscribed \$25,000 each to build a concrete vessel in that harbor. From this construction it is expected that subsequent steps will develop the concrete ship as an economical means of rapidly increasing the number of freight vessels in service.

The ship will be built at Redwood Harbor under a secret process developed by Kenneth McDonald, Jr. and his brother, Alan McDonald. It will be 300 feet long, 46 feet beam and 24 feet deep. The process is said to give the concrete the tensile strength and elasticity of steel. Naval engineers and architects have passed upon the plans. The company which is being formed by way of partnership contribution to the government includes Leslie Conyn, John A. Hooper, E. A. Christensen and John Lawson.

The widespread interest which the subject of concrete ships is attracting has brought to light a number of instances wherein concrete has been successfully used in the construction of barges. One barge, known as the "Pioneer," has been in use on the Panama Canal since 1910. This barge is 80 feet long, 24 feet wide, 7 feet deep, weighs 150 tons, when light, draws 2 feet 8 inches and when loaded 3 feet 6 inches. It is built of concrete and reinforced with steel. The barge is due to the construction of the boat rather than to any cause relating to the material used.

The "Pioneer" was constructed of 1 part cement to 2½ parts fairly coarse sand. No coarse aggregate was used. The thickness of the bottom, walls and deck is uniform, being 2½ inches.

Although the "Pioneer" has been in use since 1910, not a trace of rust or decay has appeared. It carries on one side the marks of a severe bump received a year or two ago. Aside from this there is no other part of the barge showing cracks of a similar size, and even from this spot there is no leakage.

The construction of this barge was under the supervision of Mr. Weller who inaugurated the use of reinforced concrete poles which are now so rapidly superseding the old wooden ones in electrical transmission. Mr. W. H. Sullivan, assistant superintendent engineer, made a full report on the barge and personally looked after the construction of the vessel.

The concrete ship seems only a further development of the concrete barge. Concrete lighters have been used for the past six years on Chesapeake Bay for freighting coal and gravel, etc. With such a credit experience has proven, engineers say, that there is no necessity for caulking and painting, that the upkeep is small and that there is no danger of decay. Barnacles, it is said, will not collect on a concrete hull.

Concrete barges have been in use on various sections of the Panama canal since 1910. Vessels, which are more like ships than barges, have been built of reinforced concrete in Norway and the American consul-general at Christiania, describes a plant at Moss, in Norway, where vessels of 3000 tons displacement are now being built.

The presence of the necessary material for a concrete vessel at so many convenient locations would make it possible to provide quickly a large tonnage. Engineers say that progress in the construction will be faster than with ships of steel or even wood.

In view of the urgent need which confronts the United States for increasing the merchant marine, engineers, shipbuilders and the shipping board, are giving the subject of concrete ships serious consideration. From the evidence at hand it would seem that marine construction has entered the era of concrete.

A robin will eat while yet a nestling, every day its own weight in insect food. They devour greedily cut-worms, inchworms, mealworms—almost any soft bodied non-hairy caterpillars.

**BOSTON COLLEGE SCHOLARSHIPS**  
In the annual competition for four free scholarships at Boston college this year in which 230 young men from more than 100 public and private schools competed first and second honors were captured by Patrick Foley and William Koen, pupils of the Xavier Brothers' school in Somerville. Similar honors were won in 1915 and 1916 by the same school.

## LOWELL SOCIALIST CLUB

The regular meeting of the American branch of the Lowell Socialist local was held last night. One new member was admitted, Henry Burke, and Joseph Murphy will be the speakers next Monday night in Jackson street, and on Wednesday night H. C. Tanner, from the Pacific coast, will speak on "Economics and Socialism" at the same place.

Walter Millard of Ohio gave an interesting talk on "Proportional Representation."

## AN ABANDONED FORD

A Ford runabout bearing the registration number "A1110 New Hampshire," was found abandoned near the dwelling of W. M. Hardy in Billerica last night.

# ORGANIZED PLAY IN CITY PARKS

Work of the Various Playgrounds Described—Public Baths Needed

Meeting of Supervisors—Grand Closing Pageant is Planned

"Whose is that, Mr. Ginty?" The speaker was a ten-year-old boy and the subject of the discussion the almost identical position of two horses' shoes which the speaker and a companion had taken at a stake. Mr. Ginty handed down a decision that the companion had won, and his decision was accepted with as much solemnity as that of a supreme court justice. The scene was the South common playground, and the episode mentioned here is but typical of the various other playgrounds throughout the city.

Mr. Thomas A. Ginty is the supervisor on the common, and from a brief talk with him one could easily hear that he was fully enjoying his work. He has entered the common because he could not help but remark the absence of the older boys and girls on the playground this year—the young folks seem to have full sway. This is explained by the numerous opportunities for work which are offered to boys and girls this summer on account of the demand for help on the farms and in the factories. One rarely saw a child over 12 years of age, and the majority were below these ages. For this reason the younger people are able to manage the much more attention from the teachers than in former years when it was almost impossible to keep the older ones from having their say. The average attendance on the grounds this year compares favorably with that of last year, however, and work is being done just as much enthusiasm being shown by both the instructors and children.

**Military Drill for Children**  
As is usual in every public activity at the present time the war is playing a little part in the playground work. The introduction of military drill, sewing on Red Cross work, and patriotic exercises which start off each day's work are all attributable to the present situation, and the young children of the playgrounds seem to feel the true nature of the American people as well as the boys and girls who do this, because practically every nationality present in either the United States or the commonwealth is represented on the grounds. On the Lincoln school grounds there is even a little Mexican, but he places his hand wholly in sympathy with Uncle Sam.

The attendance on the South common averages from 150 to 200 a day, and this number is sufficient to keep the six teachers busy. Mr. Ginty, as supervisor in charge of the boys, is assisted by Miss Mary M. Cowell, who has charge of the girls. Miss Bawita Lawlor and Mrs. Eva W. Manser are assistant instructors and are in constant attendance on the grounds. Miss Driscoll and Miss Gladys J. Tabor are present only in the afternoon. The playground opens at 9 o'clock, and the exercises including the singing of "The Star Spangled Banner" and the recitation of the Pledge of Allegiance, come the setting up exercises and military marching movements which are new features of playground work in Lowell. As yet all the military movements are done free-hand, that is, without any equipment, but the city has turned to furnish the children with wooden guns, and as soon as these arrive the interest in military work will be greatly heightened. Miss Cowell takes charge of the girls, and the boys look to Mr. Ginty for instruction. A basketball game, a baseball game, and one or two sports dear to the heart of a boy are common remedies closely in an Olympiad.

**Sports for Little Girls**  
The girls have their sports, too, although they are not as strenuous as those of the sterner sex. Medicine ball throwing, dancing, and games of all sorts are interspersed judiciously with the more confined work of sewing. Then Miss Louise F. Mahoney visits the different groups at regular intervals and tells the children stories. Miss Mahoney's visits are always eagerly awaited. Another popular feature of the South common playground is the proximity of the baths in the Elliot school. The children of this district have the advantage of being able to use the baths every day, and the children of the other districts only one day a week. The bathing pond on the South common, in past years an attraction which drew children from all over the city, is nonexistent this year. It had been planned some time ago to cement the bottom of the basin, but as yet this has not been done, and at present the place is a mass of mud. When this feature is restored it is thought that the common will be even more popular than in past years. At the present time the girls are bathing in the Western canal, which is both dangerous and unsanitary. It is impossible to keep the boys out of the canal, and when the place is not provided they naturally seek out that is not safe. Besides, this interferes seriously with the playground work because on warm summer afternoons the boys lose all interest in the activities on the grounds and rush to the water. After that the supervisors, loses all interest in the playground work. The remedy is the South common playground will be almost ideal for the work which it desires to accomplish.

**On North Common**  
The North common was the place next visited by the writer, and here the activities were very similar to those of the other common. Thomas P. Pyne is the supervisor here, and his assistants are Miss Mary E. Carolan in charge of the girls, Miss Helen Castle, Miss Catherine G. Murphy, Miss Mae G. Sullivan in charge of sewing, and Miss Lucille Washburn. Mr. Pyne stated that the North common has the busiest time of any of the playgrounds because of the large attendance there. An average of 300 children on the ground daily, a number of new swings have been added to the equipment, and these together with "trotters" and handbikes provide no little enjoyment for the children. The regular program of work is

carried out here much as on the South common, and the military equipment is eagerly awaited. Games between the various baseball teams on the common are arranged by the supervisors, and the rivalry between the several "gangs." The children on the common have their baths once a week at the Elliot school, and the girls of the young gentlemen prefer to keep themselves immaculate by bathing in the various swimming places nearby. The girls here are doing the regular work in sewing and games, and are making much progress in both lines.

**Allen Street Grounds**  
The Allen street playground is probably the most segregated of any. It seems to be near nowhere. Cool breezes from the Merrimack help to neutralize the discomfort of warm days, and several shanty houses have been erected to provide relief from the sun. Mr. John A. Walsh, Jr., is in charge of these grounds, and his assistants are Miss Mary H. Haggerty, Miss Alice M. Nichols, and Miss Helen E. Hlekov. A regulation diamond is laid out on the grounds, and the boys and girls are at hand. The children on these grounds are mostly of French parentage, and many exclamations in French were heard by the writer as he walked about the grounds. An effort is being made to have the children speak English and is working out fairly well. The work which the girls are accomplishing in the sewing line, and already eight dresses have been made. Swings and benches are provided here also and Mr. Walsh is making an effort to have an inter-playground baseball schedule arranged that his district warriors may display their ability. They have already played several games with the North and South common teams. It is expected that a regular schedule will be agreed upon by the different supervisors in the near future. The main difficulty with the Allen street grounds is the distance from the baths in the Elliot school.

The boys have the river right at hand and prefer this to "scrubbing," while the girls are almost unable to stand the long walk to the school on a warm afternoon. The teachers are still striving, however, to solve the problem, and a remedy is being sought which will undoubtedly be forthcoming in a short while.

**Walker Street**  
The Walker street playground, a comparatively new one, is situated on Walker street between Broadway and Middlesex street. It is under the supervision of Mr. H. H. Haggerty, and only boys use the grounds and the daily attendance averages between 100 and 150. A regulation diamond is laid out and much of the time is spent in the national game although the other assigned work is not neglected. Afternoon the boys were engaged in making kites, and Mr. Haggerty is making an effort to have the boys make a cash prize to the boy making the best kite. Here again the lack of swimming facilities causes the boys to venture in dangerous canals near-by.

**Chambers Street**  
The Chambers street playground in charge of Mr. Clarence A. Cunningham, is one of the older grounds of the city. The usual program of exercises and sports is carried out here under the direction of Mr. Cunningham and his assistants, Miss Mary J. Reardon, who has charge of the girls, Miss Ethel Lombard and Miss Mary Rourke. The attendance here is wholly satisfactory. The usual trouble in regard to the bathing question is experienced.

**Jaige Street**  
The Jaige street ground is right in the heart of the city. Miss Harriet L. McQuinn and Miss Natalie M. McQuinn are the teachers here. At first there was some annoyance from older boys of the vicinity but this has been done away with, and now the playground discipline is very satisfactory. The attendance in the majority here and in an average attendance is between 80 and 100. Swings and shelter houses have been provided. The boys are busy at present working on dresses.

**At Lincoln School**  
At the Lincoln school grounds Miss Margaret T. Donovan is the supervisor, and Miss Anna Z. Reynolds is the assistant. Although there is a number of swings on hand more is being added. Miss Donovan stated that she believed the swings were the backbone of any playground. The children will stay on the swings when they won't do anything else. Here again the girls are predominant, but there has been some trouble with the older boys. It has been suggested that a man instructor be assigned to take care of the young men. The attendance is the chief activity at the Lincoln school ground, and from some of the places exhibited yesterday it was easy to see that the children were accomplishing a lot of useful work.

**Bayette Street**  
Miss Gertrude Ready is in charge of the Bayette street grounds, and with her assistant, Miss Gertrude Lyons, is carrying out much of the work of the other grounds. At the Franklin school Miss Irene Cummings is the supervisor and Miss Henrietta Coniston the assistant. The usual exercises, games and sewing are being carried out here. Here, in short, is a resume of the work on the Lowell playgrounds in 1917. A number of features to come off in the future are being prepared on all of them, and mention may be made of the fact that the parents of the children who are attending the playgrounds. On the closing day of the year it is planned to hold a grand pageant representing the work of the year. In order to do this costume must be provided, music learned and the various dances to be used must be practiced. The supervisors are working on the making of costumes and the other features will be attended to later. In order that the parents of the children

Continued on page twelve

ence and fitness are accepted subject to certification. Applicants must have reached their 18th birthday on the date of making oath to the application. Applications will not be accepted from employees of the government or firms or corporations engaged in carrying out contracts for the government or its allies, unless accompanied by the written consent of the head of the office, firm, or corporation under which the applicant is employed to his appointment in case he should pass the examination.

It is the desire of the ordinance office that this register be established locally, so that there may be avoided as far as possible the calling in of candidates from any distances. For this reason qualified persons are urged to apply for the examination at once as said inspectors are badly needed. Until further notice and on account of the urgent needs of the service, applications will be received at any time. Papers will be rated promptly and certification made as the needs of the service require.

This examination is open to all male citizens of the United States who meet the requirements. Applicants should at once apply for Form 1312, stating the title of the examination desired, to the district director at the address below. Applicants should be properly executed, including the medical and county officers' certificates, and filed with the district director without delay. The fee ranges from \$3.50 to \$5 per diem.

## TRADERS' BANK DIVIDEND IS BLOCKED

WASHINGTON, July 20.—Hope of an early settlement of the affairs of the Traders' National bank of Lowell by the payment of a dividend of 10 per cent. to the creditors was disappointed yesterday by disclosure that some of the assets are tied up in a lawsuit in Oregon, which may not be decided for some time. The absence of Receiver H. G. Murray, who is in Pensacola, Fla., Rep. Rogers took up the subject with the chief of the bureau of insolvent banks, who explained the reason for delay. Among the bank's investments, it was said, was a fruit orchard in Oregon, and this now is involved in litigation, in which the receiver is not interested except as it is interested on behalf of the Traders' National and a bank in Providence which had the same investment. "It may be a matter of several months before the suit is settled and the way be paved for the payment of the dividend," Mr. Rogers was informed. Mr. Murray had been hopeful that the affairs would be wound up this afternoon or early this morning, but these court proceedings preclude fulfillment of this hope.

**AFTER ALLEGED AUTO THEFT**  
Officer William H. O'Brien, of Bitteria, armed with a warrant issued by the local court, went to Hartford, Conn., this morning to pick up an arrest Francis Everett, who it is alleged, stole an automobile belonging to Dr. Nell K. Porhan from the latter's garage in Bitteria the night before last. It is alleged that Thompson drove the machine over the road to Hartford where he was apprehended by the police of that city.

Sun want and opportunity adlets produce results.

## SOLDIER BOYS HEAR LOCAL TALENT

"And the night shall be filled with music And the cares that infest the day Shall fold their tents like the Arabs And as silently steal away." And with the cares that stole away from Camp McGinness at South Framingham where the Ninth regiment is encamped, so stole away last evening a large number of soldiers to town and to the homes of their friends. For yesterday was pay-day for the Ninth regiment, and after the ghost had walked through each company street the regiment was transformed into a bunch of millionaires. But it didn't run away to enjoy their money, hundreds remained in camp and those who did were treated to a first class entertainment by all Lowell talent and a bang-up patriotic speech by Mayor O'Donnell which was cheered to the echo. For the good of the community, James E. Donnelly arranged for an entertainment for the Lowell members of the Sixth regiment at their quarters at Camp Darling and the affair was a big success. The commission on the entertainment for the boys of the Lowell company of the Ninth, and last evening was the appointed time. The talent and about 50 Lowell friends arrived at the camp ground about 7 o'clock, the singing of the national anthem, and the use of their automobiles for the occasion. Daniel E. Dilworth, George F. Conway, Frank Gunther, Thomas H. Lane, Gottlieb Thum, Edward H. Foye, John McMahon, and Mr. Underwood of the Lowell Auto Co. The boys of the Ninth regiment can with propriety sing that old song, "Tenting Tonight On the Old Camp Ground." For Camp McGinness is located on the old camp ground in South Framingham, the scene of a glorious time in the good old days of the annual encampments of the militia, when the rules weren't terribly strict. But now it is old-fashioned and out of date as compared with the much more sumptuous quarters accorded the Sixth at Camp Darling at the other end of the town. The tents in which the Ninth are quartered will never see service beyond Framingham, according to report, as they have been condemned. The visitors were received at Co. M's street which was decorated with Japanese lanterns. At the end of the street a piano of the "Impromptu" variety, ground out popular music, played a selection by a talented member of the company. After Capt. Christian

had bade the visitors welcome, it was decided that the street was no place for an entertainment and everybody retired to the illuminated tent in front of the Y.M.C.A. tent where the boxing bouts were held. Prior to the boxing bouts were enjoyed, one of the participants being a rookie who after serving in the trenches abroad had come to this country and enlisted in the Ninth. His feature was the tin-cup bout, a most amusing sport which was introduced by the boys of Co. M, and taken up by the entire regiment. Two men are equipped with boxing gloves and tin cups and are blindfolded, assuming a position on their hands and knees. At the call of time, rapping the tin cups on the floor and when coming together each opponent is landed, groping about as they come together, each with his free hand. When they get out of range of each other the referee cries: "off," whereupon each taps his cup on the floor and the other gets the cue and proceeds in the direction of the sound, lustily vaulting the opponent until his mailed fist connects with his opponent's face or body. The bout was most amusing.

**Mayor O'Donnell Speaks**  
About 8.45 it was announced that the entertainment would continue until 9.30, when lights were to be put out. A "charade" was given, a "band" as he called to order and introduced Mayor O'Donnell. The latter made a rousing speech on the glorious record of the Ninth regiment, Massachusetts from the days of the Civil war and expressed confidence that wherever sent the Ninth of today would carry out the grand traditions of the past. His Honor received three cheers as he closed his remarks. Commissioner Donnelly had a lengthy program prepared, but was obliged to curtail it somewhat in order to get within the time as the boys demanded encores from those who appeared.

A piano was hustled out from the entertainment and most accomplished job piano and did most accomplished job as accompanist. John "Roundie" Roane was the first at bat and he made a hit with a vocal solo. He followed by a solo by Mrs. Shannon and another by Mrs. May Dillon. Donnelly, both of whom sang well and were there with a little assistance. Mr. Thornton made a decided hit with his "Cross of Gold" speech, assisted by the audience. Mr. Thornton explained that the oration was ineffective without the cheers of the multitude, and made them all cheer lustily each time he said "The Cross of Gold." Did they cheer? Strangling soldiers from the street, street cars, and tents came rushing over to make in the the result, and Mr. Thornton received an added cheer as he concluded. A crowd of nearly 1,000 healthy soldiers cheering as one man certainly can make some noise.

James Daley sang a song and then played his Irish pipes. First he played "Believe Me" with a classy accompaniment by William F. Foye. While Mrs. Regan Longtin sang the verse. Then Daley switched onto a jig and Mrs. Longtin and William F. Foye stayed at the crowd "going." Walter Davis, the "nut" comedian, had the boys with him when he rendered "Huckleberry Finn."

**Miss Dion's Hit Hit**  
One of the biggest hits of the evening was charming little Miss Alice E. Dion, who sang "When Rosie Wacoula learned the Hula Hula," an Italian dance thrown in. Miss Dion received a cheer that equaled the tumult of the Bryn auditors. She repeated the song and would have been singing there yet had time permitted. A beautiful number which was thoroughly appreciated by all present was the duet rendition of "The Rosary," by Misses Etta Thompson and Nettie Roberts.

Toward the close of the entertainment Mrs. Regan Longtin gave a feature number of the evening, "The Story of the Ping Wo Love," carrying in her hand the stars and stripes. Mrs. Longtin was never in better voice and sang most impressively, the soldiers uncovers as she waved the flag. There were other numbers, Mr. Donnelly and the Honey Boys, but at this point the master of ceremonies was notified that the program would have to come to a close, whereupon David Boyle assisted by the Honey Boys Four sang "America, Here's My Boy," with fine effect. For the closing number the entertainers in chorus sang "The Star Spangled Banner," every man in the big audience standing at salute, the civilians with uncovered heads. As the lights went down the soldiers giving a solo honor for Lowell went down the company streets, while the Lowell people resumed their autos for the homeward trip.

**Incidents of the Visit**  
When William F. Thornton appeared on the stage a voice in the crowd cried out: "Cheese it, fellows; here's the truest officer!" And a moment later another voice was heard asking: "How is it, all right to play yuck tomorrow?" Framingham presented a busy appearance during the early evening. Every store and a crowd of soldiers making purchases, particularly those that sold candy, cigars and soda, while the restaurants were filled with soldiers and their lady friends having supper with their girls on pay-night. Three autoloads of Lowell people, who left Framingham at 8.45, arrived in Lowell after 1 o'clock, and one of the party was heard to remark: "I'm going to run for county commissioner this fall. I've been in every town and village in the county tonight." They lost the road and went around in circles, but it was a fine night to ride. Their only regret was the fact that

they arrived in the town of Harvard just as the last waltz was being danced at a party in the town hall, and the lights went out as they were about to invade the party.

In going to Framingham one of the drivers didn't see the one-way street sign at Concord, but the town cop saw. Their only regret was the fact that

## GERMANS CHEER U. S. GUNNERS

WASHINGTON, July 20.—At 1 o'clock on the morning of June 12 the American steamship Moren was sailing along the coast of Spain in an attempt to make an Italian port when her engines broke down and she was becalmed. Three hours later a German submarine sighted her and opened fire.

The armed crew under Chief Boatsman's Mate Andrew Copassaki returned the fire and for two hours a battle raged. The Moren was hit 46 times. Her merchant crew sought to desert her, while the naval jackies continued the fight. Copassaki stood by his guns until one of them was disabled and the flames of the burning ship drove him and his men from the other. Then they took to the

boats and were congratulated by the submarine commander for having put up the gamiest fight that had ever been made by the crew of an armed ship.

See Daniels yesterday made public the complete and verbal story of the official report made to the navy department by Copassaki. It represents the most thrilling story that the American navy has staged during the present war and will probably go down with the best legends of the service. It follows:

"At about 1 a. m. June 12, the engines stopped. I was awakened, and asked the captain what was the trouble. He said something was wrong in the engine room, and the engines had to be stopped. They remained stopped for about three-quarters of an hour.

"We were attacked by a submarine at 4:05 a. m. on June 12, 1917. She was off the port quarter, about 9000 yards away. She fired four or five shots before we located her. We swung around until our stern faced the submarine and returned the fire at a range of about 7000 yards.

"The submarine stayed about 8000 to 9000 yards away and for that reason

our shots fell short. We sent out a radio call for assistance.

**Ammunition Running Low**

"After a half-hour fight we were hit in the gasoline tank aft, and a fire started. It was reported to me that the ammunition aft was running low. Immediately I lined up the forward gun's crew with the merchant crew to pass ammunition from forward aft. About an hour later fire broke out all over the ship and it became impossible for the men to pass any more ammunition aft. When I saw such was the case, I happened to be at the machine gun, and I called for one of the gun's crew to go forward with me. I reached the bridge, being burned on the way. The man was unable to follow. About this time the steering gear was shot away and we started to go around in circles.

"Coming down off the bridge I saw the captain and the boatswain, who was holding the falls ready to lower the lifeboat. The captain said to come and get in the lifeboat, as it was starting to burn. I told him to wait. He said he would hold the boat as long as possible for me.

"I then noticed two of the gun's crew in the lifeboat. I ordered them to get out and come with me. We went forward and manned the forward gun, with which we fired four shots before the firing pin went out of commission.

"When the submarine saw our fire was coming closer she steamed full speed astern, so that we could not see her. Then, as we could fire no more, and as the captain called that the lifeboat was burning, we got into the lifeboat. Meanwhile, the engines of the ship had not been stopped, and she was going around in circles, which she continued to do for about a half hour after we left.

lifeline upset when it hit the water and two of the merchant crew were lost. We swam around until we were able to get to the capsize boat, turn it over and climb into it.

"I found out afterward that soon after I went forward, during the fight, the after gun's crew and merchant crew left in their boat. The boat was becoming too hot and would have burned the boat. I also found out that the first mate of the ship left much earlier, before any of the other boats, with three men, leaving behind the men who were supposed to go in that boat.

"The submarine called the boats alongside and congratulated us, shook hands with the captain and told us that it was the best fight they had ever seen any merchantman put up. He asked if there were any Englishmen in the boat. I told him no.

"The Germans treated two men who had been wounded and returned to the other boats. The commander of the submarine said he would have towed us toward the beach but for the fact that we had called for assistance.

"The submarine then left us, and commenced firing again into the Moren. She finally hit the Moren's engine room which stopped the engines. We then lost sight of the submarine.

**Lifeboat Upset, Two Drown**

"The lifeboat upset when it hit the water and two of the merchant crew were lost. We swam around until we were able to get to the capsize boat, turn it over and climb into it.

"I found out afterward that soon after I went forward, during the fight, the after gun's crew and merchant crew left in their boat. The boat was becoming too hot and would have burned the boat. I also found out that the first mate of the ship left much earlier, before any of the other boats, with three men, leaving behind the men who were supposed to go in that boat.

"The submarine called the boats alongside and congratulated us, shook hands with the captain and told us that it was the best fight they had ever seen any merchantman put up. He asked if there were any Englishmen in the boat. I told him no.

"The Germans treated two men who had been wounded and returned to the other boats. The commander of the submarine said he would have towed us toward the beach but for the fact that we had called for assistance.

"The submarine then left us, and commenced firing again into the Moren. She finally hit the Moren's engine room which stopped the engines. We then lost sight of the submarine.

**German Cheer Spaniards**

"About an hour after the submarine left us, we were picked up by the Spanish steamer Valbanera (about 8 a. m. June 12), which had received our call for assistance. The captain of the Valbanera told me we were then about 17 miles off Cape de Pales, Spain.

"Shortly after the submarine came up near the Valbanera. The officer of the ship got in a small boat and went over to the submarine. He returned to the ship and the submarine crew cheering, and the Valbanera's crew also cheering, and then steamed away.

"While on the Valbanera we were given every consideration, dry clothing, food and good sleeping accommodations.

"We were landed in Barcelona, Spain, at 8 a. m. June 13. Reported to the American consul on arriving, who fitted the crew with clothing.

"During the fight, which lasted a little over two hours, the steering gear was shot away and the ship was going around in circles we could get no range. The submarine fired about 200 shots while we were on the horizon, of which about 40 hit the Moren.

"Copassaki's home is at 2096 Daily Avenue, New York. Other members of the crew were Gardiner Conover of Fairbury, N. D.; George Seaman of Orange, N. J.; Edward T. Smith, 312 East 142d Street, New York; Joseph Kennedy, Passaic, N. J.; Ross Biddle, Evans Mills, N. Y., and E. J. Whymann, Bayonne, N. J.

**Socialists May Not Take a Chance Sunday**

BOSTON, July 20.—There may not be a repetition of the "riot" of Sunday, July 1, next Sunday, for the simple reason that the meeting and accompanying parade of socialists, scheduled for Boston common Sunday afternoon and duly sanctioned by Mayor Curley, may be abandoned altogether.

Last night James Oneal, state secretary of the socialist party, announced that there would be a meeting of the executive committee of the socialist party and the workmen's council tonight for the express purpose of deciding what action shall be taken relative to Sunday's program.

Secretary Oneal requested that the announcement of the "peace meeting" arranged by the socialist party and the workmen's council of Greater Boston on the ball grounds of Boston common for Sunday afternoon at 4 o'clock, with the list of speakers, be withheld until the executive committee had acted definitely on the matter.

In explanation of the contemplated conference of socialists in regard to the advisability of adhering to the original program, Mr. Oneal frankly admitted that a letter sent by United States Dist. Atty. George W. Anderson to Mayor Curley and the federal prosecutor's statement, issued later in the day, was directly responsible for the change in the meeting of the executive committee.

United States Dist. Atty. Anderson sent copies of the letter he addressed to Mayor Curley to Gen. Charles F. McDermott, Commissioner of the Police, and to Mayor Curley and the federal prosecutor's statement, issued later in the day, was directly responsible for the change in the meeting of the executive committee.

"It is true that on July 17 I wrote Mayor Curley a letter in response to his notice that he had licensed a socialist meeting on Boston common next Sunday. It is also true that, in response to his telephone inquiry this afternoon, I told him that I had no objection to his giving that letter to the press. If he does not choose to do so, I assume it is for reasons which, in his judgment, are of public moment. I, therefore, only add that I pointed out in a part of the letter that the entire responsibility for the maintenance of public order and safety rests with the state and municipal authorities; that the sole function of the federal government is to obtain evidence of, and institute prosecutions for, breaches of federal statutes; that the federal authorities have no concern with the holding of meetings or of any other matter pertaining to police jurisdiction. I added: 'I have neither the occasion nor the qualification to discuss the extent to which the police powers are here divided between the governor of the commonwealth, the mayor and the police commissioner of the city of Boston.'

"Secretary Oneal last night ridiculed the statements to the effect that trouble would be serious than that of Sunday. July 1, might be anticipated should the parade and meeting on the common be carried out. He grandly announced that the executive committee intended to participate in the parade and attend the 'peace meeting.'

"I think it is unfair of Dist. Atty. Anderson to intimate that anarchists would be present at our meetings. The police arrested so-called 'rioters' a few weeks ago, but no claim has been made that there were anarchists among them. Until the executive committee discusses the situation Friday night, I cannot say whether the program will be carried out as arranged," said Secretary Oneal.

**SLAM, BANG!**

"There goes that Screen Door again. I must go down to Adams' and get one of those Screen Door Checks, and, neighbor, I would advise you to try them too. They close the door quickly and silently, and keep it closed. 'Nuf said."

## TOMMY MURPHY WINS TAVERN STEAK

CLEVELAND, July 20.—Before the largest crowd that ever attended a grand circuit meeting at North Randall, Thomas W. Murphy drove his bay gelding, Royal Mac, to victory over a big field in the 2.14 trot in the \$3000 Tavern "Steak" yesterday afternoon.

Waiter Cox sent his wonderful mare, Mabel Trask, around the mile track to victory over "Pop" Geers' St. Frisco, and McDonald's Zomrest, in the Jack-pot Sweepstakes, setting a new season's trotting mark of 2:05 1/2.

These were the big events, and thrillers of the biggest afternoon of the week. Murphy went into the "Steak" second in favor with the followers of the game. W. J. Leyburn was the favorite, but did not take a heat.

Murphy, winner of many a trophy on the grand circuit, sent Royal Mac around hunched with the rest of them in the first mile until nearing the stretch. Then the gelding showed wonderful speed and came in handily, making the mile in 2:08 1/2, with W. J. Leyburn second and Early Dreams third. The time of Royal Mac in the second heat was 2:07 1/2, while Early Dreams took the third in 2:09 1/2.

Mabel Trask, the champion money winner of 1916, put up a splendid race in the Jackpot Sweepstakes. There were scores who thought Geers would win with St. Frisco, and to many it looked as if Geers had taken the first heat. But Mabel Trask won by the closest possible margin and made the mile in 2:05 1/2.

In the second heat St. Frisco got away to a good start, but Mabel Trask won again, the time being 2:06 1/2.

A big field had entered the 2.03 pace and the track was in excellent condition. Adico Guy was the favorite, but in the first heat Peter Look showed a burst of speed and made the last quarter in 30 seconds, the fastest quarter run off this week. He won the heat in 2:05 1/2. In the second heat Adico Guy went around the oval in 2:03 1/2, the fastest mile paced this year. The Savoy was second again, with Peter Look third. Adico Guy then went out and took the third heat and the race in 2:04 1/2.

Lon McDonald took the second division of the Fasig Sweepstakes in two straight heats with Harvest Tide, 3-year-old daughter of The Harvester. Trupolia was the favorite, but finished second and fourth.

John R. Braden took the 2.17 pace in

straight heats. The summary:

SOLITARY FAVORITE WAS ROAN HAL

WORCESTER, July 20.—About 3500 persons saw Roan Hal, the Hartford pacer, driven by Harry Brusie, set a new track record, 2:07 1/2-4, for the Greendale track yesterday afternoon in winning the free-for-all. The former record was 2:05 1/2-1-4.

Roan Hal was the only favorite to live up to expectations. The only rub he got was in the third heat by Maj. Woolworth, May Bird, a consistent winner for Frank Fox, was beaten for the first time this season in the Chamber of Commerce 2.14 pace by Vaneola. Little considered before the start of the race, Lady Gamage was second choice but could land nothing better than third.

Fox sprung a surprise in the 2.10 trot with a bay mare, Lucy Clover, winning in straight heats, the second of which was in 2:12 1/4.

Birdie Alejo won the opening heat

of the 2.14 pace in 2:10 1/2, but failed to beat the flag in the second.

Today's card has for its feature the 2.11 pace. The other two races will be two divisions of the 2.30 trot. The summary:

DR. T. J. KING, The foremost dentist of New England.

DR. J. E. ROBILLARD, One of Lowell's leading dentists.

STATEMENT OF DR. ROBILLARD:

I have practiced dentistry in Lowell for years and during that time I know I have given satisfaction to the people of this city. To make the big success that my ability and ambition demands I am obliged to avail myself of the most wonderful improvements now being used by Dr. King, and I do not hesitate to admit the superiority of the King's method of Painless Dentistry. I hope my patients will agree with me that I am doing the right thing in joining with a reputable dentist who has made a noble position for himself and his methods in our city.

IF I HURT YOU DON'T PAY ME

No pain and a small per cent. over the cost of the best materials money will buy is a combination that cannot be beat. Get the other fellow's price for his best, then compare it with mine, is all that I ask you to do.

If you want the best—a set of teeth that defies detection in the mouth—the Natural Gum is the set you must have. Used in my office exclusively.

Why Fatima is today the only high-grade cigarette at a moderate price 20 for 15¢

Fatima does NOT give you

- a wasteful, costly box.
- or fancy, expensive tips.
- or "showy" packing or frills.

But Fatima DOES give you

- a perfectly balanced Turkish blend—comfort while you smoke and afterwards, too.
- absolute purity.
- more sincere quality, better tobacco and more quantity for the money than any other high-grade cigarette on the market.

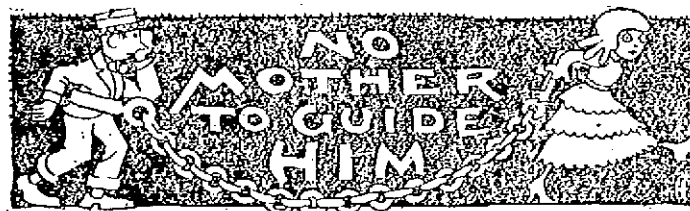

Remember, that in addition to purity, good taste and big value, Fatimas offer you something else—they are cool and friendly to your throat and tongue, and they leave you feeling keen and fit even though you may smoke more often than usual.

Liggett & Myers Tobacco Co.

In these times, you want full value—smoke Fatimas.

## A Sensible Cigarette

BY WINONA WILCOX

Vacation time is the open season for spooners. Spring, fall and winter, man may choose whether to spoon or not to spoon—but the menace of vacation spooning no man can elude.

And the real menace, contrary to the popular notion is to the man. It is he, not the girl, who must be careful when undertaking a summer spooning expedition.

Woman takes spooning so seriously, that's why. She expects it to lead somewhere.

never finding out anything about her. He doesn't know that she is always in love with love, so much so that she never can tell the genuine from the synthetic.

So she seizes with glee upon any love that is offered, even that poor, weak artificial substitute—spooning.

Woman at any age has always in mind a love that is passed, or a love which she missed, or a lover to come. Any handy man becomes her ideal, the

## DRAFT DRAWING FAIR TO ALL

WASHINGTON, July 20.—This is the day of the nation's selection from among its sons to fill up the ranks of the armies of democracy.

Who shall go first among the ten millions registered for service is to be determined by chance in a carefully devised lottery.

The drawing of lots is the climax of the nation's effort to build up a great military force on the principle of universal service.

Already President Wilson has formally ordered to the colors 657,000 of the men for whom lots are drawn today and most of them will be in training by mid-September. To pro-

vide that number physically fit and without any incumbrance calling for exemption the war department will summon for examination the 1,374,000 who are found after the drawing to stand at the head of the muster roll.

Every precaution was taken to make the drawing today absolutely fair to everyone of the registrants. An elaborate scheme worked out in weeks of study to save time and labor and crowd the entire process into an hour was abandoned last night when it was discovered that registration boards in some sections had misread the instructions for numbering local registration cards.

Officials declared today that the change to a simpler but more laborious plan left no possibility of inequality or fraud.

Although 9:30 a. m. was set for beginning the drawing, it may be late tonight before it is finished. Under the plan adopted 10,500 numbers must be drawn, one at a time.

# N.E. TROOPS TO BE 26TH DIVISION

Camp at Charlotte, N. C.,  
to be known as Camp  
Green

Sixth's Chances of Going to  
France Unaffected by Re-  
moval to Ayer

BOSTON, July 20.—Washington  
wired Brig. Gen. Clarence R. Edwards,  
commander of the Northeastern de-  
partment, yesterday afternoon that the  
6th Division of the National Guard,  
the New England troops, will become  
the 26th division of the Regular  
Army, that the men will go into  
camp at Charlotte, N. C., and that the  
camp will be known as Camp Green.  
Rumors that the 6th Massachusetts  
regiment was sent to Ayer with the  
intention of keeping it there during  
the war were emphatically denied by  
Gen. Edwards yesterday.  
"This regiment," said he, "is as

likely to be sent to France as any  
other organization. Its chances re-  
main unaffected by its removal to  
Ayer. The regiment was sent to Ayer  
because the government had the  
money there with which to make it  
comfortable, which it could not do in  
its former quarters. The whole regi-  
ment was sent so that guard duty  
might be light on each individual."

This morning Gen. Edwards goes by  
automobile to Fort Adams, R. I., on an  
inspection trip that will take until  
night. Gov. Beckerman of Rhode  
Island has asked him to be his guest  
over night.

Capt. Hugh S. Brown, C.A.C., at the  
Northeastern Department headquarters  
yesterday said that most of the  
local candidates for appointments as  
second lieutenants, for which com-  
petitive examinations will be held Mon-  
day at the Institute of Technology,  
are exceptionally well qualified. Many  
of them are from the Harvard Reserve  
Officers Corps.

Capt. Spurr of Fort Banks was yester-  
day announced as captain of the  
competitive examinations will be held  
throughout the country. There are  
several hundred vacancies to be filled.  
A conference took place at the  
Northeastern Department headquar-  
ters yesterday between Gen. Edwards  
and Commander of the Reserve  
Officers Corps, and the new naval  
guard. One soldier and one sailor  
will travel together henceforth with  
equal authority over the men in uni-  
form of the federal service.

The Northeastern Department com-  
mander plans to take up with New  
England governors a plan to give the  
home guards and other non-federal  
organizations distinctive uniforms  
that will easily be distinguished from  
those of federal service men.

## JUST EAT, SLEEP AND WORK

That is all that some people do.  
They are deprived of all the higher  
things in life, all the pleasures and joys  
of existence because in health has been  
robbed them of their efficiency and ordi-  
nary duties now take so much time  
that there is no opportunity for relax-  
ation and social pleasures.

Are you like that? If you are, look  
into your own case and see if worry is  
not responsible for much of your  
trouble. See if you do not fret over  
little things and scold when you could  
just as well be pleasant.

The disorder which causes its victims  
to worry whether they have anything  
to worry about or not is neurasthenia.

It is the great American disease, showing  
that the blood is thin, and the first  
thing to do is to build up the blood,  
because anything that builds up the  
general health helps to correct the  
neurasthenic condition.

Dr. Williams' Pink Pills are an ideal  
tonic for this condition because they  
are non-alcoholic and neurasthenic  
patients should avoid alcoholic stimu-  
lants. Write today to the Dr. Williams  
Medicine Co., Schenectady, N. Y., for  
booklets on the nervous system. Your  
own druggist sells Dr. Williams' Pink  
Pills.

## TELEPHONE MEN AWAIT CALL TO DUTY

BOSTON, July 20.—The Signal Corps  
battalion of the New England Tele-  
phone & Telegraph Co. is now fully  
organized and awaits the call to duty.  
Over 200 picked men constitute the  
Fifth Telegraph battalion of the Sig-  
nal Reserve Corps, commanded by Al-  
bert K. Manson. Just when this  
call will come is not known.

Inasmuch as the battalions repre-  
sented the New York and Pennsylv-  
ania companies of the system are now  
in training at Monmouth, N. J., there  
is a general expectation that the New  
England battalion will also be sent to  
that point for its course of training.  
Only a few technicalities are tem-  
porarily delaying the listing of a few  
non-commissioned officers, as well as  
the commission of supply lieutenant  
and one of the first lieutenants of  
C. E.

The remarkably fine showing of the  
men in the physical examination is  
worthy of note. To obtain the total of  
205 men it was necessary to examine  
only 220, a ratio of rejections to total  
examined of slightly over 10 per cent.  
There are several types of Signal  
Corps battalions. There is one in each  
division of the army called a field bat-  
talion. These are composed of three  
companies, one radio, one wire and one  
out-post. All men of the radio and  
wire companies are mounted on a horse  
or upon one of the wagons. A field  
battalion is organized into three com-  
panies and each company into platoons.  
Platoons are again divided into sec-  
tions.

In connection with the announce-  
ment of the appointment of John J.  
Carty, chief engineer of the local tele-  
phone company, as senior major of the  
corps, the Army and Navy Journal  
said: "The commissioning of Mr. Car-  
ty as an officer in the Reserve Corps  
may be taken as a further step to have  
this important branch of the country's  
defensive system ready not only in ma-  
terial, but in personnel."

To understand the Signal Corps' duty  
and organization is to understand  
the some extent the organization of the  
United States army. The wire com-  
panies operate by means of the buz-  
zer-telegraph and a flexible wire  
strung along the ground from a wire  
on reel cart which carries five miles  
of wire. In laying out or recover-  
ing wire, mounted men ride behind the  
reel cart with long poles with  
danger arrangement on the outer end.  
They direct the wire with these poles  
to wherever it is desired to let it lie  
in the road.

The duty of the corps is to main-  
tain communication between different  
units of the army under all conditions.  
In order to do this many different  
kinds of signaling are used in addition  
to radio, buzzer, telephone and tele-  
graph.

## AMERICANS WHO SOUGHT KAISER'S LIFE KILLED

LONDON, July 20.—The Renter Am-  
sterdam correspondent sends the fol-  
lowing:

"According to information available  
here, which must, however, be treated  
with necessary reserve, two Americans  
were shot recently on the charge of  
having attempted to take the German  
emperor's life."

### COMMUNICATION

The following letter from the chair-  
man of the Red Cross executive com-  
mittee is self explanatory:

New York Headquarters, 50 Wall St.,  
New York City, July 17, 1917.

Dear Sir: Many corporations de-  
clared "Red Cross dividends" to help  
the American Red Cross for our army  
and navy. The generosity of these  
corporations will have been in vain if  
shareholders fail to give the dividends  
to the Red Cross. Without these di-  
vidends the Red Cross will be hampered  
in its work.

The Red Cross is preparing now for  
a vastly increased American army at  
the front. It must ship great quantities  
of supplies. It must store up supplies  
for future emergencies. It must have  
a fund of money to meet the special di-  
vidends corporations gave to sharehold-  
ers.

Do you know that the French, for  
the spring offensive prepared for 300,000  
wounded? To prepare for our  
wounded the Red Cross must avail it-  
self of every dollar it can get.

We would not risk the lives of our  
sons and brothers at the front in un-  
do practically nothing without medi-  
cal stores and equipment. A great  
quantity of the stores and equipment  
can be bought with the millions out-  
standing in Red Cross dividends.

For the want of something better,  
the wounded soldiers are being used up  
newspapers have been used to wrap up  
the wounded soldiers abroad. When  
our boys are wounded—and surely they  
will be—are we going to let them suffer  
still more through our neglect? To  
avoid this, a Red Cross dividend means  
withholding relief from our wounded.

We at home must help the army at  
the front. Men in the military and na-  
val service are being sent to the front  
and the Red Cross alone offers the  
opportunity to extend the aid and  
way of helping to pay over the di-  
vidends to the Red Cross.

You, as a publisher, can help by  
printing this letter or referring it di-  
rectly to the duty of the holders of  
these dividends.

Very truly yours,  
Seward Prosser,  
Chairman Executive Committee.

FEDERAL OFFICIALS IN KANSAS  
GIVE AUTHORITY TO PROBE  
POISON PLAGIOT

KANSAS CITY, Mo., July 20.—Fede-  
ral officials of Kansas were given blan-  
ket authority from the attorney gen-  
eral's office in Washington yesterday  
to proceed in an investigation of an  
alleged poison plot against the gov-  
ernment, according to Fred Robinson, federal  
district attorney.  
No concrete evidence that such a  
plot existed has been found, however.

## EIGHT ON THE BORDER 500 SHOTS FIRED

MISSION, Tex., July 20.—Approx-  
imately 500 shots were exchanged  
across the Rio Grande yesterday at  
Ojo de Agua, eight miles southeast of  
Mission, between a small American  
border patrol and a number of uniden-  
tified Mexicans.

There were no American casualties,  
but the latest reports say two or three  
Mexicans were seen to fall during the  
engagement, which started at 11  
o'clock yesterday and ceased at 5  
o'clock, when the Mexicans withdrew.  
The Americans were under command  
of Corporal Kent and the fighting  
started when several shots were fired  
from the Mexican side.

The outpost at Ojo de Agua, hear-  
ing the Americans returning the shots,  
immediately sent reinforcements un-  
der Sargent J. C. Henderson.

Late yesterday Col. B. F. Delama-  
ter reached the scene with 100 men

from K and M companies of the 2d  
Texas Infantry, from nearby posts.

A strong patrol has been thrown out  
along the Rio Grande in the affected  
section as a precaution against a  
possible attempt at border raiding.

Few details of the engagement  
reached here last night. From the best  
information, there were about 100  
Mexicans participating and one report  
says three distinct bugle calls were  
heard, indicating that the Americans  
were attacked by an organized force.  
The last of the attackers disap-  
peared in the brush at 5 o'clock, be-  
fore Col. Delamater reached Ojo de  
Agua.

If you want to buy, sell or exchange  
anything try a Sun want ad.

CLAUSE TO EXPEL UNION MEN  
WHO ATTEMPT TO "HOLD  
UP" EMPLOYER

BOSTON, July 20.—A clause order-  
ing the expulsion of any union mem-  
ber who attempts to "hold up" any  
employer for a wage in excess of the  
schedule desired by the union for the  
duration of the war, is contained in a  
new wage and working agreement  
which has been presented to em-  
ployers by the Boston Coal Holston-  
ing engineers' union. The new agree-  
ment calls for a wage increase of \$5 a  
week.

## 1892-Twenty-Five Years-1917

The Gagnon Dental Offices were established in Lowell a  
quarter of a century ago.

Equipped with the most modern appliances, and employing  
the most advanced methods of that period, we quickly compelled  
recognition, and the reputation thus established for effective and  
satisfactory treatment we prized as the foundation of future and  
permanent success.

The years have come and gone. Tempus fugit! Yet, true  
to our fundamentals, we have never permitted time to get ahead  
of us. We have been constantly "up-to-the-minute" in dentistry.  
Every improvement in dental equipment and method of treatment  
meriting consideration during the past quarter of a century has  
had our earnest attention and study; and the result has been  
satisfactory alike to our patrons and to us.

Twenty-five years of practice, with thousands of people  
bearing testimony to our skill and square dealing, is a record  
of which we are naturally proud. We feel that we can call at-  
tention, without boasting, to our stability and integrity in Lowell  
as a contrast to the itinerants who have imposed upon the Lowell  
public by inferior equipment, antiquated methods and false repre-  
sentation.

DR. A. J. GAGNON AND ASSOCIATES.

## Resinol the tested skin treatment

If you want to experiment on your skin,  
there are plenty of treatments to experiment  
with. But if you want something the value  
of which has been proven by years and years  
of successful use, if you want a treatment that  
doctors prescribe constantly, that you know  
contains nothing harsh or injurious, you will  
find it in Resinol Ointment, added  
by Resinol Soap. It usually  
stops itching instantly, and rarely  
fails to clear away all trace  
of ordinary skin-eruption.

Sold by all druggists

## GEN. SIBERT INSPECTS FORCES IN FRANCE

AMERICAN TRAINING CAMP IN FRANCE, July 20 (By the Associated Press)—Major Gen. William L. Sibert went through his entire camp yesterday on the first official inspection tour he has made.

From early morning until in the afternoon he made the rounds and did not call it a day until he had examined each set of quarters and inspected virtually every man in his command.

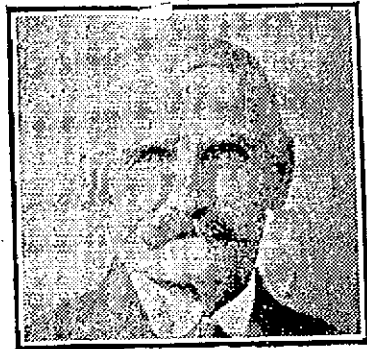

As the army is divided into squads, the majority of which are billeted out with the inhabitants of the district, the task of inspection was a tremendous one and could be accomplished only by the amazing activity of the general, who almost ran his staff off their legs and set a pace obviously stiff for the youngest of the men.

The result of the inspection was apparently satisfactory in the main, for the general criticized seldom, and everywhere had a good word for the results achieved by the troops in clean-

## Joins the Army of Enthusiasts

Well Known Lowell Citizen Now Relieved of His Illness By Plant Juice

There are many things learned from experience. Among them is the fact that stomach trouble, which may be either inherited or acquired, and which produces indigestion, dyspepsia, palpitation of the heart, gas, or a

A. H. ORKINS

bloated feeling, coated tongue, headaches, backache, pains in the side, bad breath, liver or kidney trouble or rheumatism, can be most successfully treated by the new herbal stomach remedy, Plant Juice which is now being introduced here. This truly remarkable preparation is a peculiar combination of wonderful effectiveness, manufactured from medicinal roots, herbs, barks and berries, which are gathered especially for it. That Plant Juice is bearing the reputation established in other cities, it is only necessary to read the statements of people who have been benefited after they thought there was no relief.

Mr. A. H. Orkins, who resides at No. 18 Ash street, and has many friends in Lowell where he has resided for a number of years, recently gave the following statement:

"I have suffered with stomach trouble for many years, my health was all broken down, and I lost my appetite entirely; my kidneys troubled me all the time, and I had terrible pains in my back; I had indigestion so bad that all the food I ate would ferment and cause gas to form in my stomach. Since I started to take Plant Juice, I can eat my food with a relish, I sleep well and have no more pain. I most highly endorse Plant Juice and am recommending it to my friends."

The Plant Juice Man is at Dows, The Druggists, in Merrimack Square, Lowell, where he is daily meeting the local public, and interesting and explaining the merits of this remedy.

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription outline—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine as this is sold under guarantee of money back if it fails to remove freckles.

ing up the quarters into which they had moved.

Here and there he found lack of cleanliness and proper sanitation, which he ordered rectified. Occasionally also, in passing in front of the troops lined up for his examination, he found time to stop and exchange a word and ask questions.

The inspection trip began punctually at 7:30 o'clock in the morning, for the general is an early riser, and at noon he returned to his headquarters late enough to snatch a hasty lunch before starting out again.

Rain fell in a steady stream most of the time, but that did not deter the inspection in the slightest.

Gen. Sibert said that many of the soldiers were without the regulation bronze button, bearing the letters U. S., which is worn on the collar. Investigation showed that most of the men had actually lost the insignia, while others had thoughtlessly given their button away to admirers.

Three aids were constantly at the general's side taking down suggestions, or noting recommendations, while the officers of each regiment visited followed as closely as they could, a pace which would permit explaining details and arrangements.

The French residents at various points viewed the inspection curiously, but enthusiastically and occasionally cheered the general and his staff.

The day was a partial holiday for the troops, as the inspection relieved them of drill for the period of its duration.

Hardly had the general's car vanished on the way to the next inspection point, when the men were hard at work again, mastering the technique of modern warfare.

## 22 COAL PRICE PLOT CASES DISMISSED

NEW YORK, July 20.—Indictments against 22 Virginia and West Virginia coal corporations and operators, charging them with conspiring to fix prices and restrain trade, were dismissed by Judge Grubb in federal court here yesterday upon the ground of "prior jeopardy." The same individuals and companies were among

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain to much alkali, which dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonsful will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulitified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

## MR. MILLARD ADDRESSES LABOR COUNCIL

"Proportional representation is the only form of representation worthy of the name," said Walter J. Millard, to the Trades and Labor council at its meeting last night.

Mr. Millard is the field secretary of the American Proportional Representation league and is working to ensure the adoption of that principle by the constitutional convention.

He claimed that as a result of its adoption in Switzerland, civil war has been prevented in the Ticino canton and that the leaders of all the parties in Belgium declare that a return to the old system is unthinkable. Briefly, the proposal is that instead of a district electing one man to the general court, the district is enlarged and as many as 15 are elected. Instead of the 15 who have the highest votes being elected, however, each party or political group that cast one-fifth of the total vote would get a member, two-fifths, two members, and so on.

The speaker said many valuable results follow this method in all the countries that use it. First, every man

## Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! it is harmless.

## GERMAN CASUALTIES IN WAR 4,623,307

LONDON, July 20.—The German casualties reported in the German official lists during June, but not as having occurred in June, are given out by the war office as follows:

Killed, 25,819.

Died of sickness, 32,191.

Prisoners and missing, 38,806.

Wounded, 55,906.

The totals of the German official lists since the far began are as follows:

Killed or died of wounds, 1,032,800.

Died of sickness, 72,969.

Prisoners and missing, 691,966.

Wounded, 2,525,651.

The naval and colonial casualties are not included.

## PLAN TO REVISE TEXT BOOKS TO TEACH CHILDREN THRIFT AT SCHOOL

NEW YORK, July 20.—America will be the first nation in the world to rewrite her text books so that the children of this country will be taught thrift in the school room. According to an announcement made today by the thrift education committee of the National Education association, radical innovations in the American school curricula are about to take place.

The lives of James J. Hill, Marshall Field, John Wanamaker and other great American business men will be studied in the schools. Text books on arithmetic, history, English composition, domestic science and household economics will be subjected to radical changes. For the first time in the history of the world, thrift and personal efficiency will be given scientific consideration in the class room. Not the narrow thrift of mere money saving but the broader thrift of individual preparedness for practical life will be taught, declares the committee's statement.

This is the sweeping significance of the resolutions adopted by the national council of education at its meeting in Portland last week. The resolutions were written and presented by S. W. Straus of New York, president of the American Society for Thrift. They point out that on account of the war America must from now on eliminate waste of every character; that President Wilson's first message to the public after the declaration of war was on thrift; that the only way to safeguard the economic future of the nation is through a better understanding of thrift which can be made possible only through the school room and that at the forthcoming meeting of the council of education in Atlanta, Ga., the school organization will be expected have before it a comprehensive plan for the practical study of thrift in the schools of America.

## CANOBIE LAKE THEATRE

Pauline Frederick, the distinguished emotional actress who has won such country-wide fame by her admirable presentation of "Zaza" and "Bella Donna," makes her latest motion picture appearance in the famous Players company's adaptation, "Lydia Gilmore," the famous emotional drama by Henry Arthur Jones, which is the attraction at Canobie Lake park theatre this week.

Miss Frederick departs from the adventurous roles which characterized her last two performances and plays the faithful wife and loving mother who goes through unshakable mental agony to shield her husband after he has proven unfaithful to her.

It is a tremendous role, powerful, gripping, intense, and Miss Frederick is ably supported in it by the all-star company of Famous Players.

## THE PICKETING POST

The suffragists who continue to poster the government at this time show a lack of patriotism and of common sense. If they have been without the franchise up to the present, is there any reason why they cannot hold the issue in abeyance until the end of the war? If they even showed the patriotism of the suffragists of England at the opening of the war, they would help their cause much more than by this disorderly exhibition in front of the executive mansion of the nation. Have these women offered their services in any useful capacity in solving some of the numerous domestic problems during the war? Not so far as we have heard. They might prepare to aid the men going to the front, to help the Red Cross or the various other patriotic organizations, but on the contrary they are pursuing a course that is obnoxious to the spirit of patriotism and that for this reason justifies their arrest when they persist in doing what the citizens in a spirit of patriotism will not allow them to do. Their course is unpatriotic and disgusting not only to the members of congress but also to the citizens throughout the country. Moreover it is injurious to the suffrage cause and opposed to the best judgment of the suffrage leaders of the country. The women engaged in it are seeking a cheap notoriety that with the short-sighted is desirable; but at this time it is interfering with the officials charged with the conduct of a great war for world liberty. The suffragists are pulling against the government and, therefore, against our success in prosecuting the war.

## PLAN TO MOVE ON BERLIN

There seems to be considerable merit in the proposition made at a banquet by the New England cavalry organizations that American troops might win the war by co-operating with the Russians on the eastern front and projecting a movement to reach Berlin. By this method the troops would cross the Pacific and thus avoid the submarine perils. The American railroad engineers now in Russia could arrange for the transportation from Vladivostok to Petrograd where the presence of American troops would do much to inspire the populace with the right spirit so that the anarchists and German intrigues would lose their influence.

This suggestion has certainly sufficient merit to warrant careful consideration by the war department. The presence of a larger force on the eastern front and particularly a menace to Berlin, would force the Germans to withdraw part of their forces from the west and other fronts. Moreover it would make doubly sure the application of the 5,000,000 man power of Russia to the task of speedily ending the war and establishing enduring peace. The plan is the most aggressive yet proposed inasmuch as thus far the Allies have only indulged in battering down the German trenches. Although the Pacific route would be the longest yet it might ultimately prove to be the quickest method of striking the finishing blow to Germany in this war.

## DON'T WORRY!

You need not worry. If you are registered and not drawn on the first draft, you need not worry. If you are drawn you have two alternatives: Either you are exempted or you are not. If exempted you need not worry. If not, you have two alternatives: Either you are called into training camp or you are not. If not you need not worry. If you are, you have two alternatives: Either you are sent to France or you are not. If not, you need not worry. If you are, there are two alternatives: Either you fight or you don't fight. If you don't you need not worry. If you do, you have two alternatives: Either you get hurt or you don't. If you don't you need not worry. If you do, there are two alternatives: Either you recover or you don't. If you do, you need not worry. If you don't you will never need to worry again.

**TO BANISH IMMORAL INFLUENCES**  
Secretary Daniels will be sustained by the best influences of the nation in his endeavor to protect the naval forces in training from immoral influences.

On the German side in this war the government has encouraged outrages upon helpless women and children by the soldiers; but at no time has any evidence appeared to show that the soldiers of either England or France departed from the injunction not to do anything as soldiers that they would not do as gentlemen. How they act who get back to big cities is a different question. They are not then under military discipline and they may lapse into the prevalent vices, although many of them, we surmise, would be so grateful for having escaped with their lives, that they would be slow to violate the divine injunction even when free from official restraint.

## AS TO BRUTE FORCE

In order to bolster up the waning morale of the folk back home, a German military article tells Germany the American soldiers have nothing like the fitness in execution and the quickness of decision that marks German

troops. He adds America's military contribution will be the mechanical application of brute power. It is plain this critic does not speak from experience. Once he shall have seen our soldiers in action on the western front, he will have an opportunity to change his views. The Prussian has made his cause the very apotheosis of brute power. It knows no laws of either God or man. It is the brute force of Prussia, cruelly applied, that has us in this war fighting to save civilization and to establish world freedom.

## THE RECREANT SENATORS

The attacks upon Mr. Hoover in the United States senate show that certain members of that body have lost all regard for truth and common decency. Senator Reed especially seems to be distinguishing himself for recklessness of statement. It would seem that a coterie of senators are representing German rather than American interests in the senate. Conspicuous among the number are Senators Reed and Stone of Missouri, Gore of Oklahoma, With Borah, Gronna, La Follette and a few others. The charge that certain senators are practicing law on the floor of the senate is probably not without foundation.

## SHIPPING LOSSES DWINDLE

The shipping losses as a result of submarine activity continue to grow less. It appears that the under water craft are either becoming more cautious or else their number and efficiency are being impaired. The failure of the submarine as an instrumentality to defeat the Allies and end the war in Germany's favor has long ago been discounted. Even Germany can no longer believe in such a possibility although the war lords still profess to believe that if given time enough the submarines can do the work.

## STILL DIVINE GUIDANCE!

Apparently the Kaiser still recognizes the Almighty as his co-partner in conducting the war. The new chancellor is also to affect divine guidance. Under such a partnership it is strange to see so little regard for the divine commands and to note that the methods of warfare must have been invented in the infernal regions.

After the republican press had thrown a fit over the alleged audacity of George Creel of the official information bureau at Washington, in having elaborated the brief dispatch of Admiral Gleaves, it now turns out that Mr. Creel's interpretation was fully justified. Subsequent events have proved it to be as correct as most statements regarding an encounter with the enemy submarines.

The hideous monster of anarchy again lifts its head in Petrograd. Happily the government forces stand loyally for the enforcement of law and order.

## A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

## Get One-Eyed Fish

F. A. Williams and E. F. Hayes, fishing at Hayden Lake, Idaho, brought in the prize (trout) fish of the season recently. Says the Spokane Chronicle: "It was a black bass with only one eye and with no indication that it ever had possessed another. There wasn't even so much as a socket on the blind side."

## "Allens Predominated"

"Allens predominated." Thus one short sentence tells the whole story of the Boston anti-conscription, red-socialist parade. It told the whole story of the Auditorium "peace terms" meeting here. These demonstrations are not American. They are merely bubbles in the melting pot. That's why we can take them more calmly

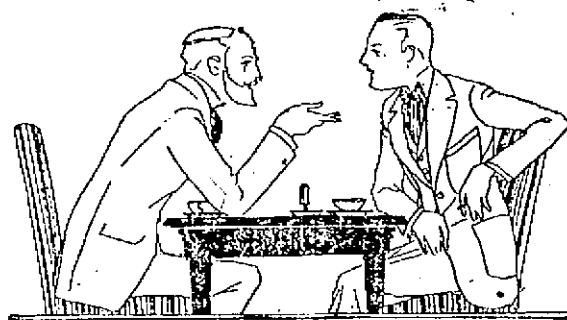

than could a right state like Germany. Well Americanize those "allens" before we're through.—Chicago Evening Post.

## Invented Creased Trousers

On the authority of the Looker-On in the Boston Record, Herbert Kecey, the distinguished actor, who died the other day, introduced the lives of thousands of men who never saw him. Mr. Kecey was the man who introduced creased trousers into the modes of New York's masculinity. This happened over 20 years ago when Mr. Kecey, then called the best dressed man in New York, appeared at the old Lyceum in a society drama sporting creased trousers. Up to that time New York men, and in fact all American men who took New York for a model, wore their trousers loose and baggy in the English style.

## The Weaker Sex

In the domestic court in New York Philip Kessel, who stands fully four feet one inch with his shoes on, was explaining the truth, he swore, about the alterations which so obviously annoyed his wife. Mrs. Kessel, a woman of huge proportions, listened intently, the while nodding her head from side to side to indicate that Philip's version was, as usual, wrong. "But," asked the magistrate, "will

## HERE'S THE YOUNG WOMAN WHO DONNED KHAKI AND ALMOST GOT TO TRENCHES

Transformed from a khaki-clad, short haired, slender Sammy (or at least a near enough approach to one to deceive the casual eye) into a smart looking ultra feminine young matron, Mrs. Hazel Blauzer Carter, "the girl who nearly got into the trenches," was returned to her home at Douglas, Ariz. Mrs. Carter, who snuggled herself aboard a transport with her husband,

the troop train at Douglas without any husband's knowledge and got to the port from which we sailed without being detected. "If I hadn't raised my voice when an officer was around they might not have found me out at all." Mrs. Carter is small, vivacious and 22 years old. She was married at Douglas in December, 1916. Her ex-patriot cost her husband his corporate privileges.

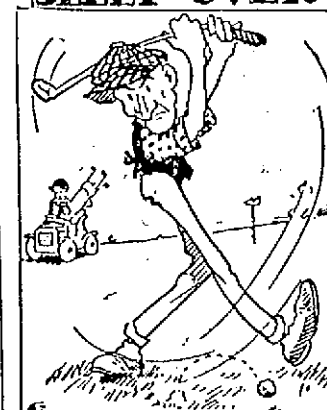

MRS. HAZEL CARTER.

Corp. John Carter of an infantry command was sent back on a transport which arrived at an Atlantic port several days ago.

"I nearly got away with being a soldier," she laughed. "I marched aboard

First Trinitarian Congregational church. Appropriate selections were sung by Mrs. Walter L. Muzzey at the grave. The bearers were Messrs. J. Walter Smith, Adelbert H. Abbott, John H. Seifer and William E. O'Connell. Burial was in the family lot in the Lowell cemetery. The funeral arrangements were in charge of Francis D. Munn under the direction of Undertaker George W. McKenna.

**McKENNEY**—The funeral of John McKenney took place today at 8.30 o'clock from the home of his mother, 20 Eighth street, and was very largely attended. Friends were present from all over the town. The cortege proceeded to St. Michael's church where, at 9 o'clock, a high mass of requiem was sung by Rev. Daniel J. Heffernan. There were many floral tributes. The bearers were Henry P. Kelley, James McDonald, Henry Whelan and Patrick McNamara. Burial was in St. Patrick's cemetery, where the final prayers were read by Rev. Mr. Heffernan.

**SIMONEAU**—The funeral services of Verner W. Simoneau took place at his home, 233 Lincoln street, yesterday afternoon. Rev. N. W. Matthews, pastor of the Gorham Street Primitive Methodist church, officiating. The bearers were Messrs. Robert Rice, T. H. Kennedy, William J. Burns and John O'Connell, representing local 135, Machinists union. Burial was in the family lot in Westlawn cemetery, where the final service was read by a delegation from Oberlin lodge, I.O.O.F. The funeral was under the direction of Undertakers Young & Blake.

**PEASELEY**—The funeral services of Edwin V. Peaseley took place last night at 7 o'clock at the home of his son, Avon W. Peaseley, 117 1/2 Mammoth road. The services were conducted by Rev. N. W. Matthews, pastor of Gorham Street Primitive Methodist church. Mrs. W. H. Peaseley sang appropriate selections. The bearers were Messrs. Avon W. Peaseley, Edward Wells and Ervin Jones. The body was sent to Magos, Quebec. Burial will be at East Bolton, Quebec. The funeral was under the direction of Undertakers Young & Blake.

**DURANT**—The funeral of Charles W. Durant was held from his home, 157 Fort Hill avenue, yesterday afternoon. The services were conducted by Rev. Raymond G. Clark, pastor of the

### FUNERAL NOTICES

**ALLAN**—Died in this city, at the Lowell General hospital, July 15. Norris Shirley Allan, at the age of 10 years, 4 months and 26 days. Funeral services will be held at the home of his sister, Mrs. Mr. and Mrs. Alexander Allan, 24 Talbot avenue, North Billerica, on Saturday afternoon at 2.30 o'clock. Friends are respectfully invited to attend. Burial in the Corner cemetery. The funeral arrangements are in charge of Undertaker William H. Saunders.

**FLYNN**—The funeral of Miss Ellen Flynn will be held Saturday morning from her home, 937 Central street, at 8 o'clock. Friends are requested to meet at St. Peter's church. Friends please omit flowers. Undertaker John F. Rogers in charge.

### DEATHS

**FLYNN**—Mrs. Julia Flynn, an old and esteemed member of St. Michael's church, died last night at the Lowell hospital after a short illness. Mrs. Flynn has been a resident of Centralville and Draught for the last forty years. She is survived by her husband, Patrick Flynn; one son, Owen and a daughter, Mrs. Christopher Broadbent of Philadelphia, Pa., also one brother, Owen Byrne and several grandchildren. Her remains were removed to the home, 1228 Bridge street, by funeral Director James W. McKenna.

**CARD OF THANKS**  
I wish to extend my heartfelt thanks to the many friends and especially to the clerks at Saunders' Market for their sympathy, their aid and assistance. I deeply appreciate their kindly efforts and will ever hold them in one and all in loving and grateful remembrance.  
Mrs. John J. Corsa, Jersey City, N. J.

### NEWS OF THE DAY IN POLICE COURT

There was a varied list of cases on the police court docket this morning, ranging from drunkenness to manslaughter and including larceny, assault and battery, neglect of wife and other offences. The complaints for manslaughter were against Henry W. Scott and Lynwood D. Foster, but the report of the inquest was to the effect that there was no criminal negligence on the part of either. Judge Enright ordered both men discharged.

Edward Guilmette entered a plea of guilty to a complaint charging him with the larceny of one peck of potatoes valued at 50 cents, the property of the Boston & Maine railroad. The case was continued to Friday.

in the house of correction after agreeing to pay his wife \$6 a week.

The nine young men from Cambridge who were arrested in Billerica early Sunday morning for disturbing the peace, appeared in court this morning and after entering pleas of nolo and upon payment of the costs of court the cases were placed on file.

Morris Hayes was charged with being a vagrant and after informing the court that he had no home and would like to be sent away, he was sentenced to the state farm.

John R. Bean was missing from court when his name was called. His default was read and a capias issued for his arrest. Bean was employed by David Ziskind and it is alleged that he stole a quantity of brass and after being arrested Mr. Ziskind went

on the man's bond after which the latter left the city and has not been heard from since.

Michael J. Joyce and Hannah Conroy were found guilty of fornication and each was ordered to pay a fine of \$10.

The continued case of Genevieve C. Ivory was called this morning. Several months ago she appeared before the court and was found guilty of the larceny of \$77 in money from a friend and was given an opportunity to make restitution but has failed to do so. After pleading for another chance the court postponed the case for two months, giving the girl to understand that she must do everything possible in order to make restitution before the next time.

Louis Lescay, an operator of an automobile at the rate of about 25

miles an hour through Merrimack street on July 5th, according to the testimony of Lieut. Freeman. Lescay entered a plea of guilty and a fine of \$10 was imposed.

Laura Tessier was charged with the larceny of a coat and skirt from Emma De Lauze. According to the testimony the Tessier girl borrowed a suit from Miss De Lauze one week ago Wednesday night in order to go to Lakeview and promised to return it the following day, but failed to do so. After a week had elapsed Miss De Lauze reported the matter to the police and the Tessier girl was arrested. She informed the court that she returned the suit last night and the reason for the delay was that she was having it cleaned. Owing to the fact that the girl is on probation at the present time the disposition of the

case was postponed until tomorrow morning.

Nicholas Connolly, charged with drunkenness, was sentenced to two months in jail.

**CARDS OF THANKS**

I hereby wish to extend my sincere thanks to all friends, neighbors and shopmates for their kind sympathy and floral tributes during the illness and death of my beloved husband, Gertrude A. Simoneau.

Those who are "working" a garden plot on Pleasant street, Pittsfield, are men who severally hail from Iowa, Illinois, Vermont, Maine and Massachusetts. Each has his own peculiar ideas about how soil should be tilled, and they hadn't been going five minutes before the first argument started.

## CORP. LOONEY OF 6TH WRITES THE SUN

Corp. "Bill" Looney, of the Sixth Regiment band, visited Ayer Wednesday evening when the organization went over to cheer up the men who were working there. Now that the Sixth has been ordered to Ayer, the corporal will stay there for a good while.

Dear Friend: We played at the new camp in Ayer Wednesday night, and it certainly was a busy place. It's only half finished at present, and it is hard to form much of an opinion of it, but it will never take the place of Camp Darling. We are to start for the new camp Saturday morning and expect to make it in three days in easy stages of 10 miles a day.

I write this information in case any Lowell people intend to visit their friends at Camp Darling in Framingham or Camp Devens in Ayer. According to orders at present the entire Sixth regiment with the exception of Maj. Dolan's battalion will be on the road somewhere between the two camps Saturday, Sunday and Monday. We expect to reach the new camp late Monday or early Tuesday.

### KNIGHTS OF COLUMBUS

The Lowell Knights of Columbus baseball team, captained by "Bob" Hart, is scheduled to play a team from the Boston 11th council of Charlestown at the field day which the Lawrence Knights are to conduct tomorrow. In aid of the war campaign fund at Riverside park. A large delegation of Lowellians is expected to accompany the team.

The regular meeting of the council was held last night and was well attended. Plans for the annual outing to be held at the Lyngbourn grounds next Thursday were discussed. Sports, including a ball game between the married and single men of the council will be featured. A day of general enjoyment for both the members and their lady friends have been completed. Cars will leave Merrimack square at 1.15, 1.45, 2.15 and 2.45 Thursday noon.

Secretary George F. Briggan has completed the work of sending out acknowledgments to contributors to the recent war camp fund campaign which the local council conducted.

### ORGANIZED PLAY

Continued

may have an opportunity to see just what the children are doing outside of the pageant work. Community days on each of the individual playgrounds are to be arranged wherein the sewing, games, dancing and other activities which the children participate in will be shown off. It is planned to have these days before the pageant day. The idea is that there will not be time to hold both the pageant and general exhibition in one day, so they have been divided up.

### Supervisors' Meeting

A meeting of the supervisors was held in the aldermanic chamber in city hall yesterday afternoon shortly after 6 o'clock. All the supervisors and teachers were present, besides the following: Harvey B. Greene, chairman of the playgrounds committee; Supt. of Parks John W. Kervan, Miss Clara E. Holland of the Lowell Guild, Miss Margaret O'Dwyer of the same institution, Mrs. Julian B. Keyes, who is to have charge of the grand pageant, and Miss Burke of the Red Cross.

Miss Burke was the first speaker, and she outlined the work which the Red Cross chapter in Lowell thought that the children of the playgrounds were capable of doing in the matter of sewing and the Red Cross work. Only simple sewing will be required on any of the work. For instance, handkerchiefs will be supplied the supervisors by the society and all that will be necessary on these will be to cut them out and hem them. The children can also make slings and ambulance pillows. The material for the latter is contributed by the public, and the society asks that housekeepers who have odds and ends of cloth which are of no use to them to send them in so that the children may make ambulance pillows from them. It was decided that the supervisors should receive a letter from the Red Cross headquarters in the Whistler house, and as soon as any is completed it is to be sent in and more will be furnished. A number of samples of each kind of work which the children do will be kept for exhibition purposes later on.

### Lowell Guild Work

Miss Holland, representing the Lowell Guild, was the next speaker, and she told of the first aid kits which she thought necessary for the safety of the children on the various playgrounds. An entire kit for each playground, consisting of five bandages, adhesive plaster, a small basin and creoline, may be bought for \$1.10 an outfit. It was decided to have Miss Holland purchase an outfit for each playground.

Miss Holland also spoke of the matter of the children attending the baths at the Elliot school. She said that the attendance as far as has been observed during the last few days of bathing days for each ground and this, with the persuasion of the teachers, is expected to improve matters. Mr. Ginty asked if the South common children might use the baths at times when the other playgrounds were not using them, and permission was granted. Miss O'Dwyer, the nurse from the Lowell Guild stationed at the Elliot school, also told of the difficulties in getting the children to come, but said that she thought once they had been given the bath it would be an easy matter to have them return of their own desire. Mr. Ginty asked if the nurse would care for cuts which the children received, and Miss O'Dwyer stated that they were ready to do that work after 3.30 in the afternoon and earlier if the case were urgent.

Mr. Greene said that the playgrounds committee was to buy 500 dolly cloths to be worked out by the children, and also an amount of raffia for the boys. He emphasized the need of having the young children participate in the sewing as well as the older ones, and suggested that considerable unskilled work be done as well as the more advanced sewing of the older girls.

### The Closing Pageant

Mrs. Keyes was the final speaker and she told of the preliminary plans for the pageant which is to be held at the close of the season. The pageant is to be divided into six parts and the various grounds were assigned their sections as follows: Part 1, South common and Walker street; part 2, North common, part 3, Allen street; part 4, Chambers street and the Franklin school; part 5, Lincoln school; part 6, Paige and Fayette streets. The matter of costumes was discussed, and it was agreed to divide the work between the girls, their mothers and the teachers themselves. The songs which are to be sung will be distributed later. Mrs. Keyes suggested that the teachers take the parts of the principal characters, as the children would not be old enough. She asked for the greatest co-operation between the supervisors and herself, and said that she would be ready at any time to discuss the pageant with them.

It was decided that the teachers whose playgrounds would take the first two parts in the pageant should meet Mrs. Keyes at the Elliot school Monday afternoon at 4 o'clock to discuss their individual parts. The other teachers will meet later in the week.

The meeting adjourned at 6.15 until next Thursday.

## REPORTS ON INQUESTS SUBMITTED TODAY

Two inquest findings were submitted at the office of the local police court this morning by Special Justice Frederic A. Elsher. The first was on the death of Max Medinsky, who was struck by an automobile, owned and operated by Henry W. Scott, in Westford street on the afternoon of Saturday, May 19, and died a week later. In this case no criminal negligence was found. The second report was on the death of James Kennedy, who died as a result of injuries sustained in an automobile accident in Dracut on Sunday, May 20, in which the machine in question was operated by Lynwood D.

Poster. No criminal negligence was found in this case. Scott and Foster appeared before Judge Bright in police court this morning on complaints charging them with manslaughter, but owing to the report of the inquests that there was no criminal negligence on the part of either, both were discharged. The complaint of operating an automobile at a rate of speed endangering the lives of people was placed on file.

**CHAUFFEURS EXAMINED**  
Thirty-one candidates for a chauffeur's license were examined at city hall this morning by Examiners Dudley, Dolan and Huley of the state highway commission.

Housewives of this city now look forward to Biddy Bye's tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

## German Chancellor Michaelis' Speech---Reichstag Adopts Peace Resolution

### America's Intervention Not Regarded With Serious Concern—Says Russia Forced War on Germany and British Blockade Made U-Boats Necessary

COPENHAGEN, July 20.—The reichstag yesterday adopted the majority peace resolution by a vote of 215 to 116 with 17 not voting.

**Chancellor's Speech**  
COPENHAGEN, July 20.—Chancellor Michaelis, in his address before the reichstag yesterday, said Germany would not continue the war a day longer if it could obtain an honorable peace. America's intervention was not regarded with serious concern. The German fleet, particularly the submarines, would master the situation, he said.

**Russia Forced War on Germany**  
"Although," said Chancellor Michaelis, "the reichstag yesterday, by their blue book, the Russian mobilization must lead to war with Germany they addressed not a word of warning to Russia against military measures while my predecessor in instructions July 20, 1914 to the ambassador at Vienna directed him to say that we willingly fulfil our duty to an ally but must refuse to permit ourselves to be involved in a world war through Austria-Hungary disregarding our counsel. The man who wishes to kindle a world war does not write like this, but like a man who is laboring and has labored for peace to the utmost."

**Great Weight on Shoulders**  
"Appointed chancellor for the first time to communicate with your high house. A great weight has been laid on my shoulders in a most grave time. Trusting God and German might I have ventured to undertake it and shall now serve the cause to the utmost of my power. I beg from you your trust and co-operation in the spirit which has been splendidly maintained in this house during the war."

**Unless I had believed firmly in the justice of our cause I would not have accepted office."**

**Defends Submarine Warfare**  
"The concentration of the Russian army compelled Germany to seize the sword. There was no choice left to us and what is true of the war itself is true also of our weapons, particularly the submarine. We deny the accusation that the submarine warfare is contrary to international law and violates the right of humanity."

"England forced this weapon in our hands through an illegal blockade. England prevented neutral trade with Germany and proclaimed a war of starvation. Our fleet hope that America, at the head of the neutrals, would check English illegality was vain and the final attempt we made by an honorably intending peace offer to avoid the last extremity failed."

**Adopted to Shorten War**  
"The Germany had to choose this last measure as a counter measure of self defense. Now also it must carry it through for the purpose of shortening the war. The submarine war is necessary, all and more than it is expected to."

"I declare, in fact, that the submarine accomplishes in the destruction of enemy tonnage what it should. It impairs England's economic life and the conduct of the war month to month in a growing degree so that it will not be possible to oppose the necessity for peace much longer."

**America's Intervention**  
"We look without serious concern upon the optimistic sentiment in the entente countries caused by America's intervention. It is easy to reckon how much tonnage is necessary to transport an army from America to Europe, how much tonnage is required to feed such an army. After our previous success we shall be able to master this situation also through our fleet, particularly the submarines."

**Ready to Quit as Victors**  
"The burning question in our hearts, however, is how much longer the war is to last. With this I come to a matter which stands in the center of all our interest and all our proceedings today. Germany did not desire the war in order to make violent conquests and, therefore, will not continue the war a day longer merely for the sake of such conquests, it could obtain an honorable peace."

The Germans, he said, wish to conclude peace as combatants who have successfully accomplished their purpose and proved themselves invincible first. A condition of peace was the inviolability of Germany's territory."

Dr. Michaelis' words require a careful reading and are capable of various interpretations other than a surface one. His German indicates a willingness to make peace only as victors and in his use of words "understand" and "give and take" (the German words *verständnis* and *austausch*). He revives the *Beitmann*

## Campers and Cottagers Take Notice

We make a specialty of supplying camps and cottages with MEATS, GROCERIES and PROVISIONS at wholesale prices. Everything clean, sweet and wholesome and of the best quality. Large orders delivered free, by auto, to suburban towns and country camps.

Idea of readjustment of the frontiers and colonial possessions by bargaining rather than the restoration of the status quo.

### SUN BREVITIES

Best Printing, Tobin's, Asso. Bldg.  
Dr. J. P. Golden, the Ruel's building dentist, has returned from an enjoyable vacation spent in the Berkshires and New York.

Mr. John J. Hogan of 33 Meade street and his cousin, Miss Margaret Meade of 56 Methuen street will spend the next two months at the White mountains.

Several thousand people attended the municipal band concert given on the South common by the National band last evening. The attendance included men, women and children and all spent a most enjoyable evening. One of the feature numbers of the program was "America, Here's My Boy" the children joining in the refrain.

Miss Sadie L. Melancon, the young lady who won the loving cup in the beauty contest, has not only good looks in her favor, but also has talent, more than the ordinary, possessing a soprano voice of great quality as well as range, having two octaves, singing from low C to high C. She is studying under Frederic G. Bond, who predicts a brilliant future for her. She will make her first professional appearance at her teacher's coming festival, where a host of her friends are looking forward to a rare treat.
